

PRODUCT CATALOGUE

Medical equipment for hospitals and clinics.

Medical equipment and hospital furniture, supplied from İstanbul.

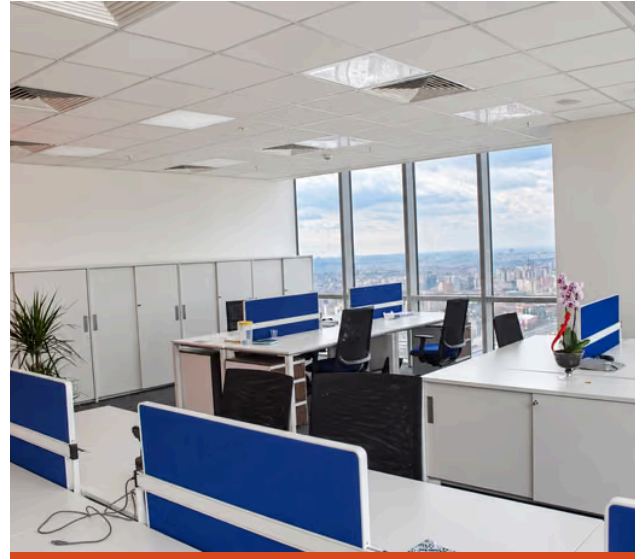

ABOUT US

Medical equipment supply you can rely on.

SEFAKOY is a medical equipment supplier based in İstanbul.

We help hospitals, clinics and care providers across the region find the right beds, trolleys, operating tables and other hospital equipment, and we stay involved from the first enquiry through to delivery.

We have grown by looking after our healthcare customers and by widening the range we can offer. Today that covers medical equipment, hospital furniture, mother-and-baby supplies and related healthcare products.

Our dental equipment work has supported many projects and brought international dental products to customers in Turkey. Across every range, our aim is the same: to match what your clinical team needs with equipment that suits it.

Patient Transfer Trolleys 5 models

- SF-A411A Multifunction Transfer Trolley
- SF-A411B Manual Patient Transfer Trolley
- SF-A412B Hydraulic Patient Transfer Trolley
- SF-A413B Manual Patient Transfer Trolley
- SF-A414A Patient OR Transfer Stretcher

ICU Beds 8 models

- SF-B117A Electric Hospital Bed Type V
- SF-B117A Electric Hospital Bed Type IV
- SF-B117B Electric Hospital Bed Type III
- SF-B115B Electric Hospital Bed Type III
- SF-B115A Electric Hospital Bed
- SF-A134A Manual Hospital Bed
- SF-D511C Bedside Cabinet
- SF-D511D Luxury Bedside Table

Paediatric Beds 1 model

- SF-A141C Paediatric Bed

Operating Tables 9 models

- SF-B320B Electric Operating Table
- SF-A310A Manual-Hydraulic Operating Table
- SF-A1101 Stirrup Type Truncated Limestone Frame
- SF-A1001A Lateral Position Fixing System
- Surgical Positioning Pad
- SF-D421A-3 Anesthesia Trolley
- Orthopaedic Traction Frame
- Ceiling-Mounted LED Surgical Light
- Mobile LED Examination Lamp

Obstetrics and Gynaecology 8 models

- SF-A232A Delivery Bed
- SF-B210B Electric Birthing Bed
- SF-A240A Electric Gynaecological Examination Bed
- SF-B330C Electric Delivery Bed

- SF-B210A Birthing Bed
- SF-B220A Electric Obstetrics Bed
- SF-A161A Examination Couch

Body Composition Analyzers 1 model

- 270S InBody Body Composition Analyzer

Anaesthesia Equipment 2 models

- Anaesthesia Machine
- Anaesthetic Trolley

X-ray and Imaging 8 models

- X-ray Radiography System
- Portable Ultrasound Machine
- Trolley-Mounted Ultrasound System
- Compact Portable Ultrasound Scanner
- Medical Film Printer with Supply Kit
- Ultrasound Thermal Printer
- Mobile Ultrasound Trolley
- Cart-Type Ultrasound System

Laboratory Equipment 4 models

- Urine Analyzer
- 800-1 Laboratory Centrifuge
- Refrigerated Laboratory Centrifuge
- DL-158 Liter Freestanding Fridge

Medical Gas and Suction 2 models

- Oxygen Regulator with Flowmeter
- Mobile Suction Machine

Hospital Accessories 9 models

- Mobile IV Stand
- Multi-Functional Patient Turning Device
- Nursing Trolley
- Emergency Trolley
- Treatment Trolley with One Drawer
- Stainless Steel Detachable Three-Layer Trolley
- Instrument Trolley 540×370×90cm
- Folding Screen 4 Folds
- Adjustable Over-Bed Rolling Table

Infusion and Injection 3 models

- Infusion Pump
- 500ml 1000ml Infusion Bag
- Luer Lock Syringe

Surgical Instruments 4 models

- Stainless Steel Surgical Instrument Component Set
- Pistol-Grip Surgical Instrument
- Microsurgical Instrument Set in Carrying Case
- Disposable Surgical Ligation Clips

Mobility Aids 7 models

- Manual Folding Wheelchair
- MK-6004 Electric Wheelchair
- MK-6002A Electric Wheelchair
- Aluminium Walker with Wheels
- Aluminum Crutch
- Elbow Crutch
- Walking Stick with Four Legs

Hospital Furniture and Storage 1 model

- Medical Instrument Cabinet

Wound Care and Dressings 8 models

- PBT Bandage
- Non-Woven Self-Adhesive Bandage
- Conforming Bandage
- Ice Bandage
- Jumbo Gauze Roll
- Type H Hemostatic Bandage
- Cotton Rigid Sports Medical Tape (Zinc Oxide)
- Non-Woven Wound Dressing

First Aid and Emergency Care 6 models

- Adjustable Neck Brace
- HD815 First Aid Kit
- Disposable Medical Tourniquet
- HD803 First Aid Kit
- HD805 First Aid Kit
- HD809 First Aid Kit

Orthopaedic and Casting Supplies 3 models

- Arm Cast Cover
- High Polymer Splint
- Orthopedics Cast Padding Medical Bandage

Protective Equipment and Infection Control 5 models

- Disposable Isolation Gown
- Hand Sanitizers
- KN95 Face Mask
- Medical Alcohol
- Protective Coverall

Respiratory Care 2 models

- Heated Disposable Breathing Circuit
- Silicon Baby Inhaler

Ostomy Care 1 model

- Ostomy Bag

COLLECTION

Patient Transfer Trolleys

Hydraulic and manual trolleys for moving patients around wards, emergency departments and between units.

5 models

MODEL	PRODUCT	SIZE
SF-A411A	Multifunction Transfer Trolley	L1930 × W663 × H510–850 mm
SF-A411B	Manual Patient Transfer Trolley	L1930 × W644 × H510–850 mm
SF-A412B	Hydraulic Patient Transfer Trolley	L213 × W80 cm (with rails up)
SF-A413B	Manual Patient Transfer Trolley	L1950 × W750 mm
SF-A414A	Patient OR Transfer Stretcher	L3650 × W640 × H640–970 mm

01 Multifunction Transfer Trolley

SF-A411A

OVERVIEW

A versatile patient transfer trolley from SEFAKOY. Hydraulic height and Trendelenburg adjustment, PP side rails and a fifth direction wheel make it easy to position patients and steer smoothly through corridors.

SPECIFICATIONS

Size	L1930 × W663 × H510-850 mm	Lying platform	L1880 × W620 mm
Brand	SEFAKOY	Model	SF-A411A
Category	Patient Transfer Trolleys	Back section angle	0-70° (gas spring)
Footrest upward angle	0-40° (crank handle)	Height adjustment	510-850 mm
Trendelenburg / reverse	-18° / +18°	Castors	Ø200 mm with central braking + fifth direction wheel

KEY FEATURES

- HPL material lying platform and PP side rail. Main frame: aluminium and epoxy coated steel.
- The side rail locks in the horizontal position, and a dip in the middle keeps catheter lines from slipping off.
- Dia. 200 mm castors with central braking pedals. Fifth direction wheel for better movement.
- Footrest max upward angle: 0-40°. Adjusted by a crank handle.
- Trendelenburg & reverse-Trendelenburg: -18° / +18°.
- Hi-low, Trendelenburg & reverse-Trendelenburg by hydraulic foot pedal.
- Side rail with angle indicators to show the backrest adjustment range.
- Back section adjustable angle: 0-70°. Adjusted by gas spring.
- Height adjustment range: 510-850 mm.

02 PATIENT TRANSFER TROLLEYS

Manual Patient Transfer Trolley

SF-A411B

OVERVIEW

A manual transfer trolley that keeps things simple: a crank for height, a gas-spring backrest and an oxygen tank holder. The PP platform and side rails are easy to clean, and a fifth wheel helps with steering.

SUPPLIED WITH / OPTIONS

- Mattress of 5 cm, high-density foam with removable waterproof cover.
- Stainless steel IV pole, adjustable height.
- IV pole sockets: 4 pcs.
- Oxygen cylinder holder.

SPECIFICATIONS

Size	L1930 × W644 × H510-850 mm	Brand	SEFAKOY
Model	SF-A411B	Category	Patient Transfer Trolleys
Construction	Epoxy coated steel, antirust and corrosion resistant	Platform & side rail	PP material, easy to clean and disinfect
Backrest adjustment	0-70° by gas spring	Hi-lo adjustment	510-850 mm by crank at bed end
Castors	Ø150 mm with central braking + fifth direction wheel	Bottom tray capacity	10 kg (two sections, 6 drainage holes)

KEY FEATURES

- Epoxy coated steel construction, antirust and resistant to corrosion.
- Side rail can be horizontally fixed by a safety lock, easy for patient transfer. Bearing capacity: 10 kg. A dip in the middle of the rail holds catheter lines in place.
- Equipped with oxygen tank holder.
- Bottom tray divided into two sections with different size and depth, with 6 drainage holes. Loading capacity: 10 kg.
- Hi-lo adjustment by a crank at bed end. Hi-lo adjustment range: 510-850 mm.
- PP material lying platform and side rail, easy for cleaning and disinfection.
- Side rail with angle indicators to show the backrest adjustment range. Also comes with IV pole sockets.
- Dia. 150 mm castors with central braking pedals on four castors. Fifth direction wheel for better movement.
- Back raise adjustment by gas spring. Backrest adjustment range: 0-70°.

03 PATIENT TRANSFER TROLLEYS

Hydraulic Patient Transfer Trolley

SF-A412B

OVERVIEW

A hydraulic transfer trolley with an X-ray translucent HPL platform, so imaging can be carried out on the trolley itself. Twin hydraulic columns, collapsible side rails and a fifth direction wheel come as standard, and size, functions and accessories can be tailored to your needs.

SUPPLIED WITH / OPTIONS

- IV pole sockets: 4 pcs.
- Stainless steel IV pole with polished finishing. Height adjustable. Four hanging hooks.
- Body restraint belts: 2 pcs.
- Folding assisting table.

SPECIFICATIONS

Size	L213 × W80 cm (with rails up)	Lying platform	L188 × W63 cm
Brand	SEFAKOY	Model	SF-A412B
Category	Patient Transfer Trolleys	Platform	Two-section rigid HPL, X-ray translucent / radiotransparent
Bearing capacity	250 kg	Castors	Ø200 mm anti-static with central braking + fifth direction wheel
Height adjustment	570-890 mm (floor to platform without mattress)	Trendelenburg / reverse	-12° / +12°
Back section angle	0-90° (pneumatic gas spring)	Mattress	6 cm high-density polyurethane, anti-static washable cover

KEY FEATURES

- Two-section lying platform: back section and body section.
- Equipped with chassis holder along the entire length of the lying platform with a fastening system.
- Mounted on four Ø200 mm anti-static castors with central braking system.
- Pair of integrated collapsible side rails.
- High-density polyurethane mattress, 6 cm thick. Cover is anti-static, washable, liquid-proof, fire-retardant, without visible seams. Dimension matches the lying platform.
- Pushing handles at head and foot end for better movement.
- Trendelenburg & reverse-Trendelenburg: -12° / +12°.
- Back section adjusted mechanically through pneumatic gas spring. Back section angle: 0-90°.
- Lying platform made of rigid HPL board. Entire length is X-ray translucent and radiotransparent.
- Built for daily hospital use, with a safe working load of 250 kg.
- Fifth direction steering wheel for better movement.
- Round bumpers at four corners.
- Base cover at the bottom for oxygen tank storage and patient belongings.
- Two-column hydraulic pumps adjust hi-low, Trendelenburg, and reverse-Trendelenburg via foot pedals.
- Height adjustment range: 570-890 mm (from floor to lying platform without mattress).
- NOTE: This hydraulic transfer trolley can be fully customised to meet client requirements in size, functions, and accessories.

To quote this model, tell us: Required quantity and destination · Customization needs (size, functions, accessories) · Preferred colour / finish

04 PATIENT TRANSFER TROLLEYS

Manual Patient Transfer Trolley

SF-A413B

OVERVIEW

A manual transfer trolley with an X-ray transparent ABS platform. The side rails fold away beneath the platform to make patient transfer easier, height is adjusted by crank, and a fifth direction wheel helps with steering.

SUPPLIED WITH / OPTIONS

- Mattress of high-density polyurethane foam, medical-grade and removable, with PU cover.
- One oxygen cylinder holder.
- One stainless steel IV pole with adjustable height and four hanging hooks.
- IV pole storage device.
- IV pole sockets.
- Body restraint strips.

SPECIFICATIONS

Size	L1950 × W750 mm	Brand	SEFAKOY
Model	SF-A413B	Category	Patient Transfer Trolleys
Height adjustment	560-850 mm	Backrest angle	0-70°
Castors	Ø150 mm anti-static swivel with central braking + fifth direction wheel	Loading capacity	230 kg
Construction	Heavy-duty mild steel frame, epoxy powder coated	Platform	Two-section ABS plastic, X-ray transparent

KEY FEATURES

- Heavy-duty mild steel structure and frame with epoxy powder coated surface treatment.
- Push handles incorporated in the lying platform at both head and foot end for better movement.
- Mounted on four anti-static swivel wheels with central braking system. A fifth, lockable steering castor keeps the trolley running straight when it is pushed.
- Overall height adjusted mechanically through a manual crank at foot end. Height range: 560-850 mm.
- Two-section lying platform (back and body) made of ABS plastic, transparent for X-ray.
- Pair of collapsible folding side rails in ABS plastic with self-locking catches and dampers. They are easy to use, clean and disinfect. Folded side rails can be concealed under the lying platform for easier and safer patient transfer.
- Back section adjusted mechanically through gas spring system. Backrest max upward angle: 0-70°.

05 PATIENT TRANSFER TROLLEYS

Patient OR Transfer Stretcher

SF-A414A

OVERVIEW

SEFAKOY SF-A414A patient OR transfer stretcher with two bases and a single sliding top. High-quality aluminium main structure and track, ABS bed board and side rails, gas-spring backrest 0–75°, crank hi-low 570–860 mm, auto-lock when the top slides onto either base, and central-control braking on each stretcher. Overall size L3650 × W640 × H640–970 mm.

SUPPLIED WITH / OPTIONS

- Two stretcher bases with sliding top system.
- ABS side rails.
- Mattress pad (as supplied).

SPECIFICATIONS

Size	L3650 × W640 × H640–970 mm	Brand	SEFAKOY
Model	SF-A414A	Category	Patient Transfer Trolleys
Configuration	Patient OR transfer stretcher with 2 bases and single sliding top	Main structure	Aluminium, pressed in one piece
Track	High-strength aluminium alloy for steady, reliable movement	Bed board / side rails	Imported ABS material
Backrest	Gas-spring adjustment, 0–75° (upper section)	Height (crank)	570–860 mm
Locking	Automatic lock when the bed slides to either single stretcher; insurance / safety equipment included	Braking	Central-control braking system on every single stretcher

KEY FEATURES

- Patient OR transfer stretcher with two bases and a single sliding top for theatre transfer.
- Two single stretchers can be lifted up/down easily so both can be raised to the same level.
- Central-control braking on every single stretcher for reliable movement and connection.
- The main structure is aluminium, pressed in one piece. High-strength aluminium-alloy track for steady movement.
- Automatic lock when the bed slides to either stretcher, with insurance / safety equipment.
- ABS bed board and side rails. Two-part bed surface; upper part gas-spring adjusted, backrest 0–75°. Crank height 570–860 mm. Overall L3650 × W640 × H640–970 mm.

06 ICU BEDS

Electric Hospital Bed

SF-B117A Type V

OVERVIEW

An electric ICU bed for critical care wards. It has a built-in weighing system, an LCD touch screen at the foot end, PP side rails with integrated controls and an X-ray translucent HPL platform.

SUPPLIED WITH / OPTIONS

- LCD touch screen control panel at foot board.
- Integrated weighing scale system.
- Foot control pedals (4 sets) for hi-low and Trendelenburg functions.

SPECIFICATIONS

Overall dimension	L2190 × W1040 mm	Brand	SEFAKOY
Model	SF-B117A Type V	Category	ICU Beds
Electric backrest	0-70° ±5°	Electric leg section	0-35° ±5°
Electric hi-low	540-940 mm	Trendelenburg / reverse	13° / 13°
Left / right tilting	30° / 30°	Platform	Four-section HPL board, X-ray transparent
Side rails	4-piece PP adjustable rails with integrated controls and angle indicators		

KEY FEATURES

- Multifunction ICU bed with a built-in weighing scale and an LCD touch screen control at the foot end.
- Four-section HPL lying platform that is strong and X-ray translucent.
- LCD touch screen at the foot board: patient record storage, bed function control, weighing, bed-exit alarm, and related functions.
- Trendelenburg / reverse: 13° / 13°. Left / right tilting: 30° / 30°.
- Four-piece PP adjustable side rails with 4 sets of control buttons integrated on the rails. Four angle indicators installed on the outside of the side rails.
- Four sets of foot control pedals on both sides of the bed for hi-low, Trendelenburg, and reverse-Trendelenburg adjustment.
- Electric backrest adjustment: 0-70° ±5°. Electric leg section: 0-35° ±5°. Electric hi-low: 540-940 mm.

To quote this model, tell us: Required quantity and destination · Preferred configuration / accessories · Weighing and alarm requirements

07 ICU BEDS

Electric Hospital Bed

SF-B117A Type IV

OVERVIEW

An electric ICU bed with a weighing system, an LCD touch screen on the footboard, full-length PP side rails with integrated controls and an X-ray translucent HPL platform.

SUPPLIED WITH / OPTIONS

- LCD touch screen control panel at footboard.
- Integrated weighing scale system.
- Foot control pedals (4 sets) for hi-low and Trendelenburg functions.

SPECIFICATIONS

Overall dimension	L2290 × W990 mm	Brand	SEFAKOY
Model	SF-B117A Type IV	Category	ICU Beds
Electric backrest	0-70° ±5°	Electric leg section	0-40° ±5°
Electric hi-low	570-970 mm	Trendelenburg / reverse	13° / 13°
Left / right tilting	15° / 15°	Platform	Four-section HPL board, X-ray transparent
Side rails	4-piece full-length PP adjustable rails with integrated controls		

KEY FEATURES

- ICU bed that weighs the patient in place, with all functions run from an LCD touch screen at the foot of the bed.
- Strong four-section HPL platform, translucent to X-ray so images can be taken without moving the patient.
- LCD touch screen at the footboard: patient record storage, bed function control, weighing, bed-exit alarm, and related functions.
- Trendelenburg / reverse: 13° / 13°. Left / right tilting: 15° / 15°.
- Four full-length PP adjustable side rails for better safety, with 4 sets of control buttons integrated on the side rails.
- Four sets of foot control pedals on both sides of the bed for hi-low, Trendelenburg, and reverse-Trendelenburg adjustment.
- Electric backrest adjustment: 0-70° ±5°. Electric leg section: 0-40° ±5°. Electric hi-low: 570-970 mm.

To quote this model, tell us: Required quantity and destination · Preferred configuration / accessories · Weighing and alarm requirements

08 ICU BEDS

Electric Hospital Bed

SF-B117B Type III

OVERVIEW

An electric hospital bed with PE head and foot boards and folding PE guard rails that hold the hand controller (IEC 60601-2-52). It has angle indicators, Ti-MOTION actuators, TENTE Ø125 mm central-locking castors and a backup battery. Size L2300 × W1050 × H500-720 mm.

SUPPLIED WITH / OPTIONS

- Hand controller with embedded rail holder.
- Backup battery.
- Central braking castor system (TENTE Ø125 mm).

SPECIFICATIONS

Size	L2300 × W1050 × H500-720 mm	Brand	SEFAKOY
Model	SF-B117B Type III	Category	ICU Beds
Head / foot boards	Blow-moulded PE with self-locking device; easy to disassemble and clean	Side rails	PE folding guard rails with embedded hand-controller holder; IEC 60601-2-52; angle indicators on both sides
Bed board	One-time punch-pressed; anti-slip system on both sides	Actuators	4× Taiwan Ti-MOTION linear actuators (high performance, waterproof, noiseless)
Castors	Germany TENTE Ø125 mm with central braking; anti-corrosion and acid resistant	Battery	Backup battery

KEY FEATURES

- Blow-moulded PE head and foot boards with self-locking device; easy to disassemble and clean.
- The bed board is pressed from a single sheet and has an anti-slip surface on both sides.
- Germany TENTE Ø125 mm castors with central braking system; anti-corrosion and acid resistant. Backup battery included.
- New-type PE folding guard rails with embedded hand-controller holder. Conform to IEC 60601-2-52. Angle indicators on the outside of both side rails.
- Four Taiwan Ti-MOTION linear actuators: high performance, waterproof, and noiseless.
- Overall size L2300 × W1050 × H500-720 mm.

To quote this model, tell us: Required quantity and destination · Preferred colour / finish · Accessory and controller requirements

09 ICU BEDS

Electric Hospital Bed

SF-B115B Type III

OVERVIEW

An electric hospital bed with removable PE head and foot panels for CPR, lockable folding aluminium side rails and a one-piece punch-pressed bed board with anti-slip sides. It has three Ti-MOTION actuators, Ø125 mm braked castors and an auto-contour function. Size 2150 × 980 × 400–620 mm.

SUPPLIED WITH / OPTIONS

- Removable PE head and foot panels for CPR access.
- Foldable lockable aluminium side rails.

SPECIFICATIONS

Size	2150 × 980 × 400–620 mm	Brand	SEFAKOY
Model	SF-B115B Type III	Category	ICU Beds
Back up / down	0–70°	Leg up / down	0–40°
Auto contour	Yes	Head / foot panels	Removable PE panels available for CPR
Side rails	Foldable aluminium alloy; lockable in raised position	Bed board	Pressed from a single sheet; anti-slip on both sides
Actuators	3× Taiwan Ti-MOTION linear actuators (high performance, waterproof, noiseless)	Castors	Four Ø125 mm castors with brakes; quiet and hard-wearing

KEY FEATURES

- Removable PE head and foot panels available for CPR.
- One-piece pressed bed board with anti-slip edges on both sides.
- Four 125 mm braked castors that run quietly and stand up to daily use.
- Foldable aluminium-alloy side railings lockable at the raised position for safety.
- Three Taiwan Ti-MOTION linear actuators: high performance, waterproof, and noiseless.
- Size 2150 × 980 × 400–620 mm. Back 0–70°. Leg 0–40°. Auto-contour function: yes.

To quote this model, tell us: Required quantity and destination · Preferred colour / finish · Accessory requirements

10 ICU BEDS

Electric Hospital Bed

SF-B115A

OVERVIEW

An electric hospital bed with an X-ray translucent HPL sleeping surface and ABS side rails (IEC/EN 60601-2-52) with built-in dual controls. It offers electric and manual CPR, auto-contour, Trendelenburg and an integrated weighing scale up to 250 kg, on Ø150 mm central-locking castors. Power 110-120 V / 60 Hz.

SUPPLIED WITH / OPTIONS

- Hand controller with locking system.
- Built-in rechargeable backup battery with charge indicator.
- Integrated patient weighing scale (kg / lb), capacity up to 250 kg.
- Protective round bumpers at bed corners.
- Certificates: CE, FDA, ISO13485, ISO9001, FSC.

SPECIFICATIONS

Sleeping surface	L2050 × W900 mm (HPL, X-ray translucent)	Brand	SEFAKOY
Model	SF-B115A	Category	ICU Beds
Back section	0-70°	Leg section	0-25°
Hi-low	470-760 mm	Trendelenburg / reverse	12°
Auto contour / vascular	Yes	CPR	Electric one-button whole-bed CPR; manual CPR handle for back section
Load capacity / scale	250 kg; integrated scale (kg / lb)	Castors	Ø150 mm with central braking; brake pedals at all four corners
Power supply	110-120 V / 60 Hz	Battery	Built-in rechargeable backup with charge indicator
Certificates	CE, FDA, ISO13485, ISO9001, FSC		

KEY FEATURES

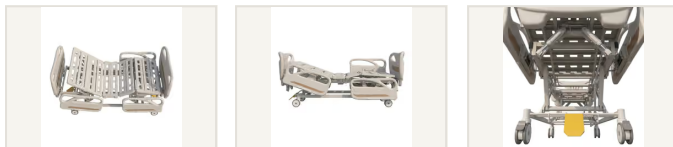

- Back 0-70°, leg 0-25°, hi-low 470-760 mm. Auto-contour, vascular position, Trendelenburg & reverse 12°.
- Removable ABS blow-moulded head and foot boards. HPL X-ray translucent sleeping surface L2050 × W900 mm.
- Steel epoxy-coated structure. Ø150 mm central-braking castors. Integrated scale up to 250 kg. Corner bumpers. Backup battery with charge indicator. Power 110-120 V / 60 Hz.
- Electric one-button CPR for the whole bed, plus manual CPR handle for back-section quick release.
- Four ABS adjustable side rails to IEC/EN 60601-2-52, with built-in dual control panels and angle indicators. Function lock switch and lockable hand controller.

To quote this model, tell us: Required quantity and destination · Power supply confirmation (110-120 V / 60 Hz) · Weighing scale and accessory requirements

11 UNIVERSAL BEDS

Manual Hospital Bed

SF-A134A

OVERVIEW

A manual hospital bed with blow-moulded PE head and foot boards, European-type PE guard rails and a one-piece punch-pressed bed board with anti-slip sides. The ABS crank has overload protection, and Ø125 mm central-brake castors make it easy to move. Size 2300 × 1080 × 500–720 mm.

SUPPLIED WITH / OPTIONS

- I.V. pole sockets: 4 pcs
- Drainage bag hooks: 2 pcs

SPECIFICATIONS

Size	2300 × 1080 × 500–720 mm	Brand	SEFAKOY
Model	SF-A134A	Category	Universal Beds
Back up / down	0–70°	Leg up / down	0–40°
Head / foot boards	Blow-moulded PE with self-locking device; easy to disassemble and clean	Side rails	European-type blow-moulded PE guard rails
Bed board	Pressed from a single sheet; anti-slip on both sides	Castors	Four Ø125 mm castors with central brake; high abrasion resistance
Crank	ABS crank handle with overloading protection		

KEY FEATURES

- Blow-moulded PE head and foot boards with self-locking device; easy to disassemble and clean.
- Bed board formed in one piece, with anti-slip strips along each side.
- ABS crank handle with overloading protection. Back 0–70°, leg 0–40°. Size 2300 × 1080 × 500–720 mm.
- European-type guard rails in imported blow-moulded PE.
- Four Ø125 mm castors with central brake for flexible movement and secure locking.

To quote this model, tell us: Required quantity and destination · Preferred colour / finish · Accessory requirements (IV poles, drainage hooks)

BEDSIDE TABLES

Bedside Cabinet

SF-D511C

OVERVIEW

SEFAKOY SF-D511C medical bedside cabinet for ward storage. Epoxy-coated steel frame, ABS top with raised edges, sliding food tray, lockable middle drawer, bottom storage with magnetic/spring-clip door, towel hangers on both sides, and four heavy-duty swivel double casters (two braked). Dimension W480 × D400 × H800 mm (±20 mm).

SUPPLIED WITH / OPTIONS

- Sliding food tray / shelf with handle.
- Lockable middle drawer.
- Towel hangers on both sides.

SPECIFICATIONS

Dimension	W480 × D400 × H800 mm (±20 mm)	Brand	SEFAKOY
Model	SF-D511C	Category	Bedside Tables
Frame	Epoxy-coated steel; enamelled steel sheet, anti-rust and corrosion resistant	Top	ABS plastic, moulded with raised edges
Food tray	Sliding food tray / shelf with handle on top	Drawer	Lockable middle drawer on rails with handle
Storage	Bottom compartment with door (spring clip / magnetic) and internal shelf	Casters	Four heavy-duty swivel double casters; two with individual brakes

KEY FEATURES

- Medical bedside cabinet / locker for patients to keep belongings at ward level.
- Epoxy-coated steel frame with enamelled steel sheet, anti-rust and corrosion resistant. It is compact, and the materials inside and out are easy to keep clean.
- ABS moulded top with raised edges. Sliding food tray / shelf with top handle.
- Lockable middle drawer on rails. Bottom storage with door (spring clip / magnetic) and internal shelf.
- Towel hangers on both sides. Four heavy-duty swivel double casters, two with individual brakes. Dimension W480 × D400 × H800 mm (±20 mm).

BEDSIDE TABLES

Luxury Bedside Table

SF-D511D

OVERVIEW

SEFAKOY SF-D511D luxury bedside table for wards and patient rooms. Compact storage unit with moulded ABS top and raised edges, pull-out tray, wood-grain drawer and lower cabinet with integrated handles, and a choice of mobile casters or stationary feet. Size L500 × W550 × H720 mm.

SUPPLIED WITH / OPTIONS

- Pull-out tray / shelf under the top surface.
- Middle storage drawer with wood-grain front.
- Lower cabinet door with wood-grain finish.
- Caster set or stationary feet (configuration on request).

SPECIFICATIONS

Size	L500 × W550 × H720 mm	Brand	SEFAKOY
Model	SF-D511D	Category	Bedside Tables
Type	Luxury bedside table / cabinet	Top	Moulded ABS with raised edges for spill containment
Pull-out tray	Full-width sliding tray / shelf under the top, integrated handle	Drawer	Middle drawer with wood-grain front and integrated full-width handle
Lower cabinet	Storage compartment with wood-grain door and integrated handle	Body / finish	Light medical-grade body with warm wood-grain facade panels; easy-clean hygienic surfaces
Handles	Recessed / integrated handles (no protruding hardware)	Base options	Four heavy-duty swivel double casters, or stationary leveling feet

KEY FEATURES

- Luxury bedside table designed for patient belongings and daily use at ward level.
- Moulded ABS top with raised edges to help contain spills and keep items in place.
- Wood-grain middle drawer and lower cabinet door with flush integrated handles for a clean, easy-to-wipe front.
- Size L500 × W550 × H720 mm, small enough to stand beside a bed.
- Pull-out tray under the top for meals or extra workspace, with an integrated handle.
- Available with heavy-duty swivel double casters for mobility, or stationary feet for a fixed bedside position.

14 PAEDIATRIC BEDS

Paediatric Bed

SF-A141C

OVERVIEW

A paediatric bed with a steel frame, lead-free epoxy finish and three-position side rails. Trendelenburg, Fowler and leg positions are adjusted by hand, and it comes with a telescopic lectern and a waterproof PU mattress.

SUPPLIED WITH / OPTIONS

- Waterproof PU foam mattress, ≥10 cm thick.
- Telescopic lectern with coupling point.

SPECIFICATIONS

Sleeping area	W75 × L139 cm	Brand	SEFAKOY
Model	SF-A141C	Category	Paediatric Beds
Bed surface height	90 cm from floor (without mattress); 100 cm with 10 cm mattress	Side rail height	75 cm
Rod spacing	6 cm	Trendelenburg / reverse	0°–12°
Fowler	0°–70°	Leg elevation	0°–35°
Castors	Four Ø12.5 cm thermoplastic wheels with bearings; two with brakes	Colour	Blue side rails, white frame
Finish	Lead-free anti-corrosive epoxy paint	Fasteners	304 stainless steel screws and washers

KEY FEATURES

- Cradle made of steel with lead-free and anti-corrosive epoxy paint finish.
- Side railings with three-position adjustable fixing system. Rail height: 75 cm. Distance between rods: 6 cm.
- Height from floor to bed surface: 90 cm (without mattress). Mattress thickness: 10 cm. Final height to mattress surface: 100 cm.
- Foam mattress with waterproof, anti-tear cover that tolerates hospital detergents and is fire-retardant, without aerators, no less than 10 cm thick. Completely waterproof PU complete-style mattress.
- Four thermoplastic wheels with bearings, Ø12.5 cm, two with brakes.
- Manual frame positions: Trendelenburg and reverse-Trendelenburg 0°–12°, Fowler 0°–70°, and leg elevation 0°–35°.
- Manual operating handles. Lectern with telescopic system and coupling point for the lectern.
- Sleeping area (useful dimensions): 75 cm wide × 139 cm long.
- Handles on both sides to flip the mattress. Comfortable mattress for sleeping / crib area.
- Colour: blue side rails, white elsewhere. Packed in wooden cases. High-quality 304 stainless steel screws and washers throughout.

Electric Operating Table

SF-B320B

OVERVIEW

An electric operating table with an X-ray translucent tabletop, horizontal sliding, a kidney bridge and battery backup. It is built in 304 stainless steel and carries up to 250 kg.

SUPPLIED WITH / OPTIONS

- Standard accessory set.
- High-density foam mattress with waterproof PU cover.

SPECIFICATIONS

Tabletop length	2070 mm $\pm$ 50 mm	Tabletop width	550 mm $\pm$ 50 mm
Brand	SEFAKOY	Model	SF-B320B
Category	Operating Tables	Height range	700-1000 mm ($\pm$ 10 mm)
Trendelenburg / reverse	25°	Lateral tilt	15° / 15°
Head rest (up / down)	+45° / -90°	Leg rest (up / down)	+15° / -90°
Leg plate swinging out	90°	Back plate (up / down)	+75° / -20°
Kidney bridge elevation	110 mm	Horizontal sliding	300 mm
X-ray translucent	Yes	Voltage / frequency	220V / 110V · 50Hz / 60Hz
Battery	Yes	Main material	304 stainless steel
Maximum load capacity	250 kg	Mattress	High-density foam with waterproof PU cover

KEY FEATURES

- Electric operating table with X-ray translucent tabletop and 300 mm horizontal sliding.
- Head rest +45° / -90°. Back plate +75° / -20°. Leg rest +15° / -90° with 90° swinging-out leg plates.
- Tabletop height adjustable from 700 mm to 1000 mm ($\pm$ 10 mm).
- Main material: 304 stainless steel. Maximum load capacity: 250 kg.
- Trendelenburg / reverse-Trendelenburg 25°. Lateral tilt 15° / 15°.
- Kidney bridge elevation up to 110 mm.
- Battery backup. Voltage 220V / 110V, frequency 50Hz / 60Hz.
- High-density foam mattress with waterproof PU cover. Standard accessories included.

16 OPERATING TABLES

Manual-Hydraulic Operating Table

SF-A310A

OVERVIEW

A manual-hydraulic operating table that arrives with a full standard accessory set: anaesthetic screen, body, leg, arm and shoulder supports, kidney bridge handle, foot plates, mattress and fixing clamps.

SUPPLIED WITH / OPTIONS

- Anesthetic screen: 1 piece
- Body support: 1 pair
- Leg support: 1 pair
- Hand remote: 1 piece
- Kidney bridge handle: 1 piece
- Arm support: 1 pair
- Foot plate: 1 pair
- Mattress: 1 set
- Shoulder support: 1 pair
- Long fixing clamp: 1 pair
- Short fixing clamp: 7 pieces
- Power line: 1 piece

SPECIFICATIONS

Brand	SEFAKOY	Model	SF-A310A
Category	Operating Tables	Type	Manual-hydraulic operating table

KEY FEATURES

- Manual-hydraulic operating table for surgical theatre use.
- Supplied with a complete standard accessory package for positioning and support.

17 SURGICAL POSITIONING PAD

Stirrup Type Truncated Limestone Frame

SF-A1101

OVERVIEW

The SF-A1101 series is a pneumatic stirrup leg holder for positioning patients in lithotomy surgery. It suits a range of lithotomy requirements and helps reduce the load on theatre staff.

SUPPLIED WITH / OPTIONS

- Pneumatic stirrup leg holder assembly.

SPECIFICATIONS

Brand	SEFAKOY	Model	SF-A1101 Series
Category	Surgical Positioning Pad	Type	Pneumatic stirrup leg holder
Application	Lithotomic surgery positioning		

KEY FEATURES

- Gas-spring stirrup leg holder for positioning patients in the lithotomy position.
- Reduces work intensity for medical staff.
- Meets the different positioning requirements for lithotomic procedures.
- Increases operative efficiency and safety to support improved surgical results.

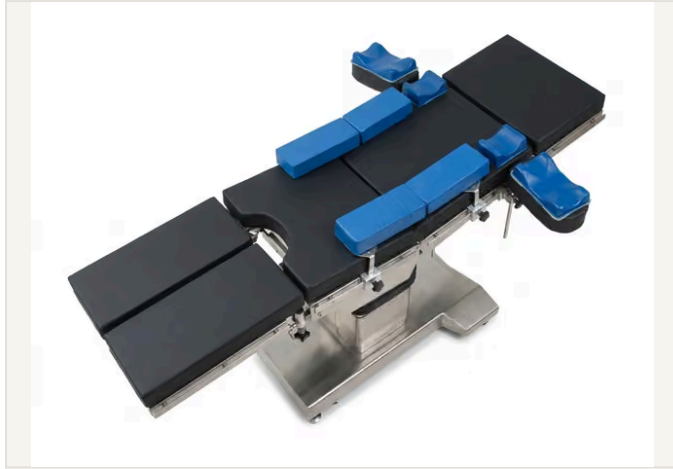

To quote this model, tell us: Required quantity and destination · Compatible operating table / mount requirements · Preferred configuration within the SF-A1101 series

18

SURGICAL POSITIONING PAD

Lateral Position Fixing System

SF-A1001A

OVERVIEW

A lateral position fixing system with a German-imported polymer board, an aluminium-alloy axis and a silicone-gel wrap that resists slipping and helps protect against pressure sores. It insulates well and can be sterilised at high temperature and pressure.

SUPPLIED WITH / OPTIONS

- Lateral position fixing board assembly.

SPECIFICATIONS

Brand	SEFAKOY	Model	SF-A1001A
Category	Surgical Positioning Pad	Board material	German-imported polymer, excellent wearability
Insulation	Excellent; unaffected by temperature and humidity	Axis	Aluminium alloy with silicone-gel wrap
Sterilisation	High temperature and high pressure		

KEY FEATURES

- Board made of German-imported polymer material with excellent wearability.
- Aluminium-alloy axis with silicone-gel outer wrap to help avoid pressure sores and improve anti-slip performance.
- Excellent insulation with no effect from temperature and humidity.
- Can be sterilised by high temperature and high pressure.

To quote this model, tell us: Required quantity and destination · Compatible operating table / mount requirements · Sterilisation protocol confirmation

19

SURGICAL POSITIONING PAD

OVERVIEW

Ergonomic surgical positioning pads in several sizes, for stable, comfortable positioning and a clear surgical field. They are made of polymer gel and film, and are X-ray translucent, waterproof, insulating, latex-free and easy to clean.

SUPPLIED WITH / OPTIONS

- Surgical positioning pad set (various specifications available on request).

SPECIFICATIONS

Brand	SEFAKOY	Category	Surgical Positioning Pad
Material	Polymer gel and film	Properties	X-ray translucent, waterproof, insulated, non-conductive, latex-free, anti-bacterial, non-allergenic, plasticizer-free
Temperature tolerance	-18°C to +55°C	Cleaning / disinfection	Easy to clean; use non-corrosive disinfectant. Do not use fumigation, high-temperature, or high-pressure sterilisation

KEY FEATURES

- Ergonomic design with various specifications for stable, comfortable patient positioning and an optimal surgical field, helping shorten surgery time.
- X-ray translucent, waterproof, insulated, non-conductive. Latex-free, anti-bacterial, non-allergenic, without plasticizer.
- Made of polymer gel and film with good softness, pressure and shock resistance; helps disperse pressure and reduce bedsores and nerve-compression risk.
- Temperature tolerance -18°C to +55°C. Easy to clean with non-corrosive disinfectant. Do not fumigate or use high-temperature / high-pressure sterilisation.

To quote this model, tell us: Required quantity, shapes / specifications, and destination · Preferred pad set for procedure type · Cleaning and disinfection protocol confirmation

20 MEDICAL TROLLEY

Anesthesia Trolley

SF-D421A-3

OVERVIEW

SEFAKOY SF-D421A-3 anesthesia trolley for theatre and clinical use. Moulded worktop with raised edges, overhead clear tilt-out bins, telescopic IV pole, pull-out side shelf, lockable drawers, lower double-door cabinet, side waste bin, and four heavy-duty swivel casters with toe-lock brakes. Size L650 × W480 × H980 mm. Colour options available.

SUPPLIED WITH / OPTIONS

- Overhead clear tilt-out bin organiser.
- Telescopic IV pole with hooks.
- Pull-out side shelf / tray.
- Side waste bin with flip-top lid.

SPECIFICATIONS

Size	L650 × W480 × H980 mm	Brand	SEFAKOY
Model	SF-D421A-3	Category	Medical Trolley
Type	Anesthesia / utility trolley	Worktop	Moulded top with raised edges for spill containment
Overhead organiser	Clear tilt-out bins on stainless supports (two rows)	IV pole	Telescopic IV pole with multiple hooks
Side shelf	Pull-out side tray / shelf under the worktop	Drawers	Two full-width drawers with chrome handles; upper drawer with key lock
Lower cabinet	Double-door storage compartment with vertical handles	Waste bin	Side-mounted bin with flip-top lid
Casters	Four heavy-duty swivel casters; two with individual toe-lock brakes; corner bumpers	Colour	Optional facade colours (e.g. blue, green)

KEY FEATURES

- Anesthesia trolley sized L650 × W480 × H980 mm for theatre and clinical supply organisation.
- Telescopic IV pole with multiple hooks and a pull-out side shelf under the worktop.
- Side waste bin with flip-top lid. Four heavy-duty swivel casters with toe-lock brakes and protective bumpers. Optional colour facades.
- Moulded worktop with raised edges; overhead clear tilt-out bins on stainless supports for small supplies.
- Two full-width drawers with chrome handles; key lock on the upper drawer. Lower double-door cabinet for bulk storage.

To quote this model, tell us: Required quantity and destination · Preferred colour (e.g. blue / green) · Accessory configuration (IV pole, bins, waste bin)

21 TRACTION AND POSITIONING FRAMES

Orthopaedic Traction Frame

OVERVIEW

An orthopaedic traction frame from SEFAKOY for use with operating tables in orthopaedic and trauma theatres. A stainless steel frame carries two padded boot-style limb holders, hand cranks for adjusting their position, and a padded support post on a height-adjustable column, so the surgeon can position and hold a limb steadily during the procedure. It rolls on castors and is easy to move in and out of the theatre.

SUPPLIED WITH / OPTIONS

- Additional pads, holders and accessories available on request.

SPECIFICATIONS

Brand	SEFAKOY	Category	Operating Tables
Type	Orthopaedic traction frame for operating tables	Frame	Stainless steel frame, adjustable in length and height
Traction adjustment	Hand-crank adjusters for setting the position of the limb holders	Foot and leg holders	Two padded boot-style holders that can be set independently
Support post	Padded post on a height-adjustable column at one end	Pads	Black padded supports for limb and body contact
Base	Weighted base with a foot-operated release	Mobility	Castors on the frame for moving and positioning
Compatible operating tables	Confirmed in your quotation	Traction and adjustment range	Confirmed in your quotation
Maximum load	Confirmed in your quotation	Dimensions and weight	Confirmed in your quotation

KEY FEATURES

- Stainless steel frame that is strong, stable and easy to wipe down between procedures.
- Hand-crank adjusters for setting and fine-tuning the position of the holders.
- Weighted base with a foot-operated release for stability while in use.
- Two padded boot-style limb holders that can be positioned independently for each leg.
- Padded support post on a height-adjustable column, to suit different patients and procedures.
- Castors let staff move the frame and position it beside the operating table.

To quote this model, tell us: Required quantity and destination · The operating table it will be used with, so we can check compatibility · Procedures it will be used for, such as fracture reduction or hip and leg surgery · Pads, holders and accessories you need

22 SURGICAL LIGHTS

Ceiling-Mounted LED Surgical Light

OVERVIEW

A ceiling-mounted double-dome LED surgical light for operating theatres and procedure rooms, supplied by SEFAKOY. Two domes, a larger main light and a smaller satellite light, hang from articulated arms on a single ceiling mount, so light can be aimed at the surgical site from different directions. Each dome carries an array of individual LEDs, a central handle for positioning and a small control panel on its rim.

SUPPLIED WITH / OPTIONS

- Sterilisable handle covers, camera and monitor arm options, and emergency backup power available on request.

SPECIFICATIONS

Category	Operating Tables	Type	Ceiling-mounted LED surgical light, double dome
Light source	LED array in each dome, made up of many individual LEDs	Heads	Two domes of different sizes, a larger main light and a smaller satellite light
Mounting	Ceiling mount with a central canopy	Arms	Two articulated arms with rotating joints, one for each dome
Handle	Central handle in each dome for positioning	Controls	Small control panel on the rim of each dome
Cooling	Ventilated back with a fan behind the LED array	Finish	White painted arms and housing
Illuminance and spot size	Confirmed in your quotation	Colour temperature and colour rendering	Confirmed in your quotation
Dome diameters and LED count	Confirmed in your quotation	Power supply and backup	Confirmed in your quotation
Ceiling mounting requirements	Confirmed in your quotation		

KEY FEATURES

- Double-dome design: a larger main light and a smaller satellite light, so the surgical site can be lit from more than one direction.
- Articulated arms with rotating joints let each dome be moved, tilted and held where the surgeon needs it.
- Small control panel on the rim of each dome for adjusting the light.
- Smooth white housing and arms that are easy to wipe down.
- LED array in each dome, made up of many individual LEDs spread across the face of the light.
- Central handle in each dome for positioning the light.
- Ventilated back with a fan behind the LED array to help keep the light cool.

To quote this model, tell us: Required quantity and destination · Theatre size and ceiling height, so we can plan the mounting · Single-dome or double-dome configuration, and dome sizes you prefer · Whether you need a camera, monitor arm or emergency backup power · Mains voltage and plug or wiring requirements for your country

23 EXAMINATION LIGHTS

Mobile LED Examination Lamp

OVERVIEW

A mobile LED examination lamp from SEFAKOY for clinics, consulting rooms, wards and minor procedures. A flexible gooseneck arm holds the LED head exactly where the light is needed, a ring of LEDs around a central lens gives even lighting, and a five-leg base on castors lets it roll to the bedside or examination couch. The column adjusts in height and a clip keeps the power cable tidy.

SUPPLIED WITH / OPTIONS

- Replacement parts and mounting options available on request.

SPECIFICATIONS

Brand	SEFAKOY	Category	Operating Tables
Type	Mobile LED examination lamp on a stand	Light source	LED ring around a central lens
Arm	Flexible gooseneck arm that holds its position	Lamp head	Vented lamp head, white housing
Stand	Vertical column with an adjustment joint for height	Base	Five-leg base with five castors
Power cable	Cable with a clip for storing the loop of cable on the column	Finish	White painted column and housing
Illuminance and spot size	Confirmed in your quotation	Colour temperature	Confirmed in your quotation
Number of LEDs and lifetime	Confirmed in your quotation	Height range	Confirmed in your quotation
Power supply	Confirmed in your quotation	Dimensions and weight	Confirmed in your quotation

KEY FEATURES

- Flexible gooseneck arm that bends and stays where it is set, so the light can be aimed precisely.
- Vented lamp head to help keep the light cool during long use.
- Five-leg base with five castors for stability and easy movement around the room.
- Lightweight white body that wipes clean between patients.
- LED ring around a central lens for even, focused lighting of the examination area.
- Column with an adjustment joint, so the height can be set for a seated or standing examination.
- Cable clip on the column keeps the power cable neat and off the floor.

To quote this model, tell us: Required quantity and destination · Where it will be used: consulting room, ward, or minor procedure room · Light brightness and colour you need · Mains voltage and plug type for your country

Delivery Bed

SF-A232A

OVERVIEW

A delivery bed for labour and delivery rooms, suitable for labour, childbirth and immediate postpartum care. It is supplied complete with a mattress and a full set of accessories for different birthing and examination positions.

SUPPLIED WITH / OPTIONS

- Adjustable gynaecological leg supports (height & angle adjustable): 1 pair
- Adjustable, easy-to-clean restraint straps: 1 pair
- Handles with rubber grips: 1 pair
- Adjustable shoulder supports with cushions: 1 pair
- Arm supports and side handles: 1 pair
- Perineal cushion for childbirth (with fluid drainage to collection tray): 1
- Sliding and removable stainless steel collection bowl: 1
- Rail clamps compatible with side rails: 4
- Anti-slip step stool: 1
- Medical stool with padded seat and height adjustment: 1
- Paper roll holder: 1
- Height-adjustable IV pole: 1
- Pre-cut examination paper roll compatible with the delivery bed: 1

SPECIFICATIONS

Overall length	≥ 180 cm	Overall width	≥ 60 cm
Brand	SEFAKOY	Model	SF-A232A
Category	Obstetrics and Gynaecology	Height adjustment (hydraulic)	68-88 cm
Backrest adjustment (manual crank)	≥ -7° to 65°	Trendelenburg / reverse	≥ 8° / 20°
Leg section	Rotating and removable	Mattress	Thickness ≥ 5 cm; seamless, waterproof, antibacterial, flame-retardant cover with perineal cut-out
Safe working load (SWL)	≥ 200 kg	Frame material	Stainless steel 304
Table sections	3 sections: adjustable backrest, seat, removable leg section	Mobility	Castors with central locking and anti-slip feet

KEY FEATURES

- Made for labour and delivery rooms, supporting the mother through labour, birth and the first hours after delivery.
- Three sections: adjustable backrest, seat section, and rotating/removable leg section.
- Hydraulic height adjustment 68-88 cm. Manual crank backrest ≥ -7° to 65°. Trendelenburg / reverse ≥ 8° / 20°.
- One bed from labour through to recovery, with positions that lock securely, sections that adjust independently, and a full set of accessories supplied with it.
- Stainless steel 304 frame with smooth welds and no sharp edges, so it is quick to clean and disinfect.
- Available positions: gynaecological, delivery, Trendelenburg, reverse-Trendelenburg, sitting or semi-sitting — all secured with a reliable locking system.
- Safe working load ≥ 200 kg. Mattress ≥ 5 cm with seamless waterproof antibacterial flame-retardant cover and perineal cut-out.

Electric Birthing Bed

SF-B210B

OVERVIEW

An electric birthing bed for delivery rooms, also suitable for gynaecological examination, diagnosis and recovery. Height, backrest and Trendelenburg are controlled from a hand remote, so the bed adapts to a wide range of birthing postures.

SUPPLIED WITH / OPTIONS

- Hand remote control with holder: 1
- Goepel-type leg rests, removable, polyurethane: 1 pair
- Foot supports, removable, polyurethane: 1 pair
- Polyurethane-coated hand grips (labor grips): 1 pair
- Polyurethane-coated birthing bar (squat bar): 1 pc
- Telescopic IV pole (4 hooks): 1 pc
- Drainage bag holders: 2 pcs
- Pull-out stainless steel basin 10 L: 1 pc
- Accessory mounting mechanisms: 1 set

SPECIFICATIONS

Platform size	L1950 × W930 mm	Brand	SEFAKOY
Model	SF-B210B	Category	Obstetrics and Gynaecology
Height adjustment	690–900 mm (electric by hand control)	Backrest adjustment	0°–70° (electric by hand control)
Trendelenburg / anti-Trendelenburg	±10° (electric by hand control)	Safe working load	200 kg
Main frame	High-quality steel Q235, environmentally friendly polymer electrostatic coating	Casters	Four twin Ø125 mm polyurethane unmarking casters, 360°, central brake
Leg section	Single (split optional), removable	Mattress	140 mm combined polyurethane + viscoelastic foam; waterproof breathable PU cover with zip
Headboard / sideboards	ABS plastic, easily removable; soft-drop siderails; corner bumpers		

KEY FEATURES

- For hospital delivery rooms: childbirth, gynaecological examination, diagnosis, and recovery in maternity hospitals and perinatal centres.
- Main parts: bed boards (back, seat, leg), bed frame, head panel, leg holders, and casters.
- Converts between standard bed and birthing bed configuration. Angle inclination indicators. Manual CPR.
- Mattress 140 mm with combined polyurethane and viscoelastic foam for pressure redistribution; removable waterproof PU cover.
- Versatile obstetric bed supporting diverse birthing postures. The chassis and joints have hidden welds and a hard-wearing surface finish.
- Hand remote control with holder. Electric height 690–900 mm, backrest 0°–70°, Trendelenburg / anti-Trendelenburg ±10°.
- Side accessory rails, IV pole / basin holes on four corners, drainage bag holders, pull-out stainless steel basin 10 L.

OBSTETRICS AND GYNAECOLOGY

Electric Delivery Bed

SF-B210C

OVERVIEW

An electric delivery bed with a wide lying platform and parts that adjust for different delivery positions. It has electric controls, a high-resilience mattress, adjustable PE side rails and split leg plates.

SUPPLIED WITH / OPTIONS

- Adjustable PE side rails with grips: 1 pair
- Split leg plates with electric swing-out.
- High-resilience padded mattress.

SPECIFICATIONS

Overall dimension	L1550-1850 × W750 × H540-940 mm	Brand	SEFAKOY
Model	SF-B210C	Category	Obstetrics and Gynaecology
Electric backrest	0-75° (±5°)	Manual seat adjustment	0-7°
Electric hi-low	540-940 mm	Split leg plates swing out	0-23° to each side (electric)
Leg plate upward	0-90° (mechanical)	Loading capacity	250 kg
Side rails	Adjustable PE material with grips	Mattress	High-resilience padded mattress to help prevent pressure sores

KEY FEATURES

- Electric birthing bed with a wide lying platform and sections that move into different delivery positions. It is comfortable for the mother and simple for staff to operate.
- Pair of adjustable PE side rails with grips to assist the patient getting up from the bed.
- Split leg plates swing out electrically 0-23° to each side. Leg plates upward mechanically 0-90° for comfortable leg support.
- High-resilience mattress padded to help prevent pressure sores.
- Advanced electrical system controls the birthing bed.
- Electric backrest 0-75° (±5°). Manual seat 0-7°. Electric hi-low 540-940 mm. Loading capacity 250 kg.

OBSTETRICS AND GYNAECOLOGY

Birthing Bed

SF-B210A

OVERVIEW

An integrated delivery bed for LDR and LDRP rooms that covers labour, delivery and postpartum recovery in one place. It is fitted with LINAK motors and controls on both sides, and allows free positioning.

SUPPLIED WITH / OPTIONS

- Adjustable stowable leg supports.
- Retractable / tiltable foot auxiliary table (neonatal delivery table).
- Folding side rails with inner patient controls.
- Retractable assistive handles.
- 14 cm multi-layer composite mattress (colour options available).
- Bedside and floor night light.

SPECIFICATIONS

Bed dimensions	L2122 × W980 mm	Brand	SEFAKOY
Model	SF-B210A	Category	Obstetrics and Gynaecology
Height range (no mattress)	550–990 mm (±10 mm)	Backrest upward	0–70°
Seat upward	0–18.5°	Trendelenburg	10°
Auxiliary table	22°	Leg upward	≥135° (10 steps)
Leg horizontal	≥60° (5 steps)	Motor	LINAK LA34 (Denmark), 24 V DC, quiet in operation
Mattress	14 cm multi-layer composite; seamless bonded, waterproof, corrosion- and odour-resistant; multiple colour options		

KEY FEATURES

- Made for LDR and LDRP rooms, where the mother stays in one bed for labour, delivery and recovery. It looks less clinical than a standard delivery bed, and its simple controls save the midwife time.
- Adjustable leg supports fold away when not needed and hold the legs steady for suturing and perineal repair.
- Oval hip section for closer perineal access. Side rails fold down to make patient transfer easier.
- Night light: bedside and floor illumination for safe nighttime mobility.
- Free positioning supports any birthing position.
- Foot auxiliary table: retractable, tiltable, doubles as footrest; slides up to become a neonatal delivery table.
- Retractable assistive handles for pushing during delivery. Manual CPR release with cushioned descent.
- Dual-side control panels with intuitive icons and function locking. Patient-friendly controls on the inner side of the side rails.

30 OBSTETRICS AND GYNAECOLOGY

Electric Obstetrics Bed

SF-B220A

OVERVIEW

An electric obstetrics bed with a stainless steel base and pedestal. Pedal and rail controls adjust height, backrest and pelvic tilt, and it has a built-in backup battery and a CPR position. Registration No. 49183.

SUPPLIED WITH / OPTIONS

- Waterproof mattress, 10 cm thick, resistant to disinfectants.
- Removable stainless steel waste tray.
- Padded / easy-clean covers for legs and feet.
- Adjustable two-hook music stand.

SPECIFICATIONS

External dimensions	L2150 × W1000 mm	Brand	SEFAKOY
Model	SF-B220A	Registration number	49183
Category	Obstetrics and Gynaecology	Height adjustment	635–980 mm
Backrest inclination	Up to 70°	Trendelenburg / reverse	12° / 5°
Pelvic tilt	Up to 18°	Load capacity	250 kg
Base / pedestal	Stainless material	Power supply	110–120 V / 60 Hz
Battery	Built-in backup battery		

KEY FEATURES

- Sturdy base and pedestal made of stainless material.
- Controls on rails for the electrical system to raise and lower bed and backrest. Central locking for electrical functions.
- Manual adjustment of plane supports for legs and footrest. Four-wheel brake. Folding side rails. Removable head and foot boards.
- Electric pedal-controlled system: raise/lower bed, raise/lower backrest, and pelvic tilt.
- Height range 635–980 mm. Backrest up to 70°. Trendelenburg 12° / reverse 5°. Pelvic tilt up to 18°. Load capacity 250 kg.
- Adjustable metal pull handles with padded grips. Manual CPR positioning. Built-in backup battery. Power 110–120 V / 60 Hz.

Examination Couch

SF-A161A

OVERVIEW

An examination couch with an epoxy-coated steel frame and a high-density foam mattress with a leatherette cover. Height is electrically adjustable, and the four castors each have their own brake. A hand remote or foot pedal, colour options and a head pillow are available on request.

SUPPLIED WITH / OPTIONS

- Optional hand remote control.
- Optional foot pedal control.
- Optional head pillow.
- Optional mattress colours.

SPECIFICATIONS

Size	1900 × 670 × 440–770 mm	Brand	SEFAKOY
Model	SF-A161A	Category	Obstetrics and Gynaecology
Caster diameter	125 mm	Height adjustment	Electric, 440–770 mm
Frame	Epoxy-coated steel	Mattress	High-density foam with leatherette cover
Casters	Four casters with individual brakes		

KEY FEATURES

- Epoxy-coated steel frame.
- Height adjusted electrically (440–770 mm). Overall size 1900 × 670 × 440–770 mm.
- Optional controller: hand remote or foot pedal. Optional colours. Optional head pillow.
- High-density foam mattress with leatherette cover.
- Four casters (Ø125 mm) with individual brakes.

COLLECTION

Body Composition Analyzers

Professional body composition analyzers that measure muscle, fat and body water in about 30 seconds, for clinics, hospitals and wellness centres.

1 model

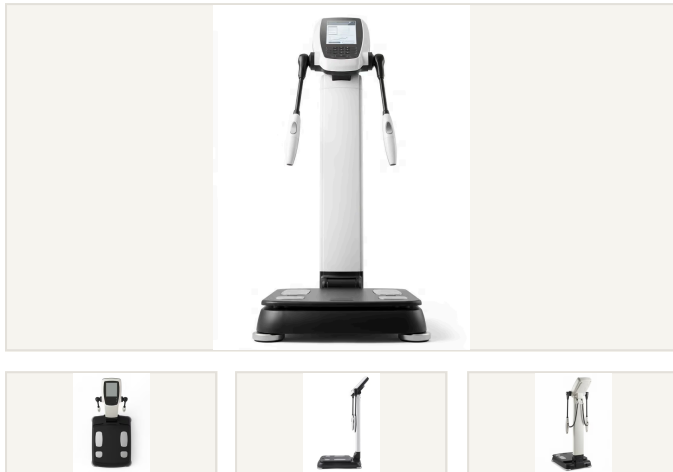

MODEL	PRODUCT	SIZE
270S	InBody Body Composition Analyzer	L796 × W356 × H995 mm

32 BODY COMPOSITION ANALYZERS

InBody Body Composition Analyzer

270S

OVERVIEW

The InBody 270S is a professional, foldable body composition analyzer. Using direct segmental multi-frequency bioelectrical impedance (DSM-BIA), it measures each arm, each leg and the trunk separately and gives muscle, fat and body water results in about 30 seconds. A 7-inch touchscreen with voice guidance makes it simple for staff and patients, and Wi-Fi and Bluetooth carry results to your systems.

SUPPLIED WITH / OPTIONS

- Compatible with a thermal printer and other accessories (available on request).

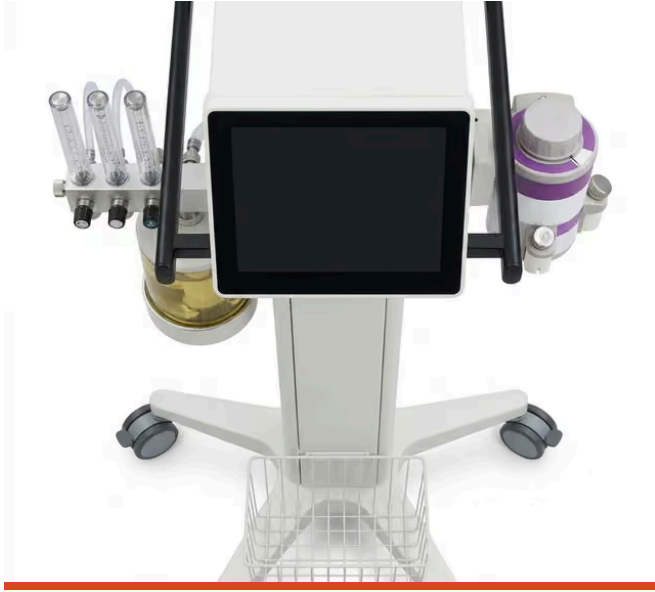

SPECIFICATIONS

Size	L796 × W356 × H995 mm	Brand	SEFAKOY
Model	270S	Category	Body Composition Analyzers
Technology	Direct Segmental Multi-Frequency BIA (DSM-BIA)	Electrodes	Tetrapolar 8-point tactile electrodes
Frequencies	20 kHz, 50 kHz, 100 kHz	Impedance measurements	15 (3 frequencies × 5 segments)
Measured segments	Right arm, left arm, trunk, right leg, left leg	Test time	About 30 seconds
Height range	95–220 cm	Weight range	2–250 kg
Age range	3 years and above	Display	7-inch colour TFT LCD touchscreen
Guidance	Voice guidance system	Connectivity	Wi-Fi and Bluetooth
Memory	Up to 100,000 test results	Weight	13.4 kg
Warranty	2-year manufacturer's warranty (terms confirmed in your quotation)		

KEY FEATURES

- Direct segmental measurement: right arm, left arm, trunk, right leg and left leg are analysed separately, with no estimates based on age, sex or body type.
- Results in about 30 seconds: weight, total body water, dry lean mass, body fat mass, skeletal muscle mass, BMI, percent body fat, segmental lean analysis and whole-body phase angle.
- Built-in memory for up to 100,000 results, so progress can be followed over time.
- Foldable, compact design (13.4 kg) that is easier to move and store.
- 15 impedance measurements from 3 frequencies (20, 50 and 100 kHz) across 5 body segments.
- 7-inch colour touchscreen with a voice guidance system that walks the person through the test.
- Wi-Fi and Bluetooth connectivity for wireless data transfer.
- Suitable for a wide range of users: height 95–220 cm, weight 2–250 kg, age 3 years and above.

To quote this model, tell us: Required quantity and destination · Where it will be used: clinic, hospital, dietetics or wellness centre · Optional accessories, such as a thermal printer · Power supply and plug type for your country

Anaesthesia Equipment

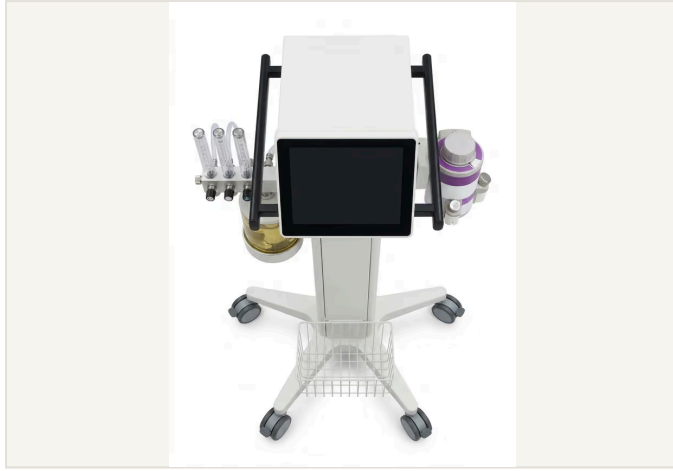

Anaesthesia machines, anaesthetic trolleys and related equipment for operating theatres and procedure rooms.

2 models

MODEL	PRODUCT	SIZE
—	Anaesthesia Machine	—
—	Anaesthetic Trolley	—

33 Anaesthesia Machine

OVERVIEW

A mobile anaesthesia machine from SEFAKOY for operating theatres and procedure rooms. It brings the anaesthetist's main controls together on one compact unit: a colour display, flowmeters and pressure gauges, an agent vaporizer and an absorber canister, on a stable base with castors so it can be positioned where it is needed.

SUPPLIED WITH / OPTIONS

- Breathing circuits, accessories and configuration options available on request.

SPECIFICATIONS

Brand	SEFAKOY	Category	Anaesthesia Equipment
Type	Mobile anaesthesia machine	Display	Colour display screen
Gas control	Flowmeters with pressure gauges	Anaesthetic agent	Agent vaporizer mounted on the machine
Breathing system	Absorber canister with breathing circuit connections	Mobility	Mobile base with castors
Storage	Wire basket on the column	Gas connections	Confirmed in your quotation
Power supply	Confirmed in your quotation	Ventilation modes	Confirmed in your quotation

KEY FEATURES

- Mobile design: a stable base with castors lets staff move the machine between theatres and position it at the head of the table.
- Flowmeters and pressure gauges within easy reach for controlling and checking gas delivery.
- Absorber canister and breathing circuit connections on the working surface.
- Colour display screen on the front of the unit, placed at eye level for easy monitoring.
- Agent vaporizer mounted on the machine, so the anaesthetic agent is delivered from the same unit.
- Wire basket on the column for small items and accessories.

To quote this model, tell us: Required quantity and destination · Where it will be used: operating theatre, procedure room or clinic · Gas supply type and connections in your facility · Ventilation modes, vaporizer and accessories you need · Power supply and plug type for your country

34 ANAESTHETIC TROLLEYS

Anaesthetic Trolley

OVERVIEW

An anaesthetic trolley from SEFAKOY for operating theatres and anaesthetic rooms. A stack of drawers of different heights runs down the front, each with a moulded blue handle, and a rack of clear tilt-out bins on top keeps small ampoules and consumables visible and to hand. The flat worktop has a raised edge and a rail, and a side panel, wire basket and bin add extra storage. A key lock secures the contents, and four braked castors let it move to the head of the table.

SUPPLIED WITH / OPTIONS

- Additional bins, baskets, IV pole and other accessories available on request.

SPECIFICATIONS

Brand	SEFAKOY	Category	Anaesthesia Equipment
Type	Anaesthetic trolley with drawers and clear storage bins	Body	White body with blue trim and blue drawer handles
Drawers	Stack of drawers of different heights down the front, some full width and some half width, each with a moulded blue pull handle	Clear bins	Two rows of five clear tilt-out bins in a rack on top of the trolley, about ten in total
Worktop	Flat work surface with a raised blue edge and a rail around it	Locking	Key lock on the front of the trolley
Side accessories	Blue side panel, white wire basket and blue bin fitted on the sides	Castors	Four castors with grey wheels and brake pedals, mounted on blue corner bumpers
Overall dimensions	Confirmed in your quotation	Exact number of drawers and their sizes	Confirmed in your quotation
Body material	Confirmed in your quotation	Load capacity	Confirmed in your quotation
Weight of the trolley	Confirmed in your quotation		

KEY FEATURES

- Drawers of different heights, some full width and some half width, so ampoules, syringes and consumables can be sorted by size.
- Flat worktop with a raised edge and a rail around it, so items stay in place while the trolley moves.
- Key lock on the front to keep drugs and supplies secure.
- Four castors with grey wheels and brake pedals, on corner bumpers that protect walls and doors.
- Rack of clear tilt-out bins on top, so small items can be seen and reached at a glance.
- Moulded blue pull handles that are easy to grip and to wipe clean.
- Blue side panel, white wire basket and blue bin fitted on the sides for extra storage.

To quote this model, tell us: Required quantity and destination · Where it will be used: operating theatre, anaesthetic room or recovery · Drawer layout and number of clear bins you need · Whether you need a key lock, side basket, bin or other accessories

35 X-RAY RADIOGRAPHY SYSTEMS

X-ray Radiography System

OVERVIEW

A fixed X-ray radiography system from SEFAKOY for hospital imaging departments, clinics and diagnostic centres. It combines an examination table with a column-mounted X-ray tube unit and a separate vertical wall stand, so both lying and upright examinations can be carried out in one room.

SUPPLIED WITH / OPTIONS

- Image receptor (detector), workstation and accessories available on request.

SPECIFICATIONS

Brand	SEFAKOY	Category	X-ray and Imaging
Type	Fixed X-ray radiography system	Configuration	Examination table with column-mounted X-ray tube and a separate vertical wall stand
X-ray tube unit	X-ray tube with collimator on a horizontal arm	Patient table	Examination table with a tabletop that extends beyond the base
Vertical stand	Wall stand with image receptor holder for upright examinations	Generator power	Confirmed in your quotation
Tube voltage and current	Confirmed in your quotation	Image receptor	Confirmed in your quotation
Table dimensions and load	Confirmed in your quotation	Power supply	Confirmed in your quotation
Room and shielding	Room size and radiation shielding are planned with you before installation		

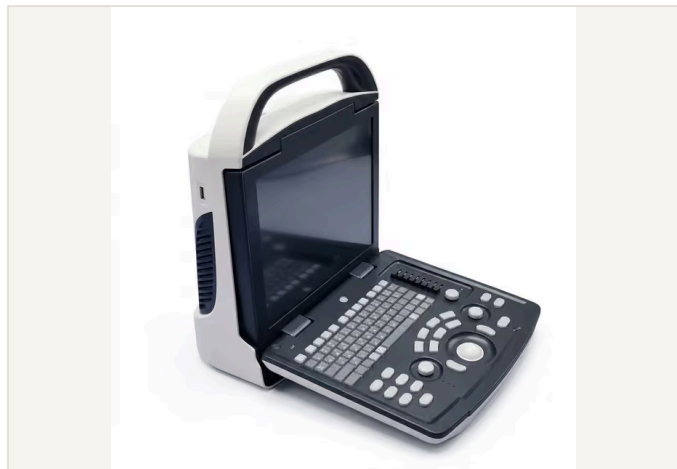

KEY FEATURES

- Examination table with a tabletop that extends beyond the base, giving the radiographer room to position the patient.
- Separate vertical wall stand with an image receptor holder for chest and other upright examinations.
- Clean, light-coloured finish that is easy to wipe down between patients.
- X-ray tube unit with a collimator, carried on a column and horizontal arm that positions it over the table.
- One room, two positions: lying and standing examinations without moving the patient to another unit.
- Room planning, shielding requirements and installation are discussed with you before delivery, and local radiation-protection rules apply.

To quote this model, tell us: Required quantity and destination · Where it will be installed: hospital imaging department, clinic or diagnostic centre · Room size and existing radiation shielding · Generator power and image receptor (detector) you prefer · Installation, training and the power supply for your country

36 **ULTRASOUND MACHINES**

Portable Ultrasound Machine

OVERVIEW

A portable, laptop-style ultrasound machine from SEFAKOY for clinics, wards, emergency departments and mobile use. The screen folds down over a full control panel with keyboard, trackball and controls, and a built-in handle makes it easy to carry from room to room.

SUPPLIED WITH / OPTIONS

- Probes, carry case, printer and other accessories available on request.

SPECIFICATIONS

Brand	SEFAKOY	Category	X-ray and Imaging
Type	Portable ultrasound machine, laptop style	Display	Colour screen that folds down over the control panel
Controls	Full keyboard, trackball, control knobs and slider controls	Carrying	Built-in carry handle
Power	Mains power inlet	Screen size	Confirmed in your quotation
Probes and ports	Confirmed in your quotation	Imaging modes	Confirmed in your quotation
Battery	Confirmed in your quotation	Storage and connectivity	Confirmed in your quotation
Dimensions and weight	Confirmed in your quotation		

KEY FEATURES

- Portable laptop-style design with a built-in carry handle, so one machine can serve several rooms.
- Full control panel with a keyboard for entering patient details and notes, plus a trackball and control knobs for measurements and adjustments.
- Ventilated body and mains power inlet for dependable everyday use.
- Colour screen that folds down over the control panel to protect it when the machine is moved or stored.
- Slider controls on the panel for quick image adjustment during the scan.
- Light-coloured finish with a wipe-clean control surface.

To quote this model, tell us: Required quantity and destination · Where it will be used: clinic, ward, emergency department or mobile service · Types of examination and the probes you need · Storage, printing and connectivity requirements · Power supply and plug type for your country

37 ULTRASOUND MACHINES

Trolley-Mounted Ultrasound System

OVERVIEW

A trolley-mounted ultrasound system for hospital imaging departments and larger clinics. A flat-panel monitor on an articulating arm sits above a full control console with keyboard, trackball and integrated displays, and several probe connectors on the front of the trolley let you keep more than one probe ready.

SUPPLIED WITH / OPTIONS

- Probes, printer, recording devices and other accessories available on request.

SPECIFICATIONS

Category	X-ray and Imaging	Type	Trolley-mounted ultrasound system
Monitor	Flat-panel monitor on an articulating arm	Control panel	Keyboard, trackball, controls and integrated displays
Probe connections	Several probe connectors on the front of the trolley	Mobility	Trolley with four castors and a push handle
Monitor size	Confirmed in your quotation	Probes	Confirmed in your quotation
Imaging modes	Confirmed in your quotation	Storage and connectivity	Confirmed in your quotation
Power supply	Confirmed in your quotation	Dimensions and weight	Confirmed in your quotation

KEY FEATURES

- Trolley design with four castors and a push handle, so the system can be moved between rooms and positioned beside the patient.
- Full control console with a keyboard, trackball and controls for measurements, annotations and image adjustment.
- Several probe connectors on the front of the trolley, so more than one probe can stay connected during a busy list.
- Flat-panel monitor on an articulating arm that can be positioned for the person scanning and for others in the room.
- Integrated displays on the console for quick access to common settings.
- Light-coloured body with smooth surfaces that are easy to wipe down between patients.

To quote this model, tell us: Required quantity and destination · Where it will be used: imaging department, clinic or ward · Types of examination and the probes you need · Storage, printing and network connection requirements · Power supply and plug type for your country

38 ULTRASOUND MACHINES

Compact Portable Ultrasound Scanner

OVERVIEW

A compact, laptop-style portable ultrasound scanner from SEFAKOY for clinics, wards, emergency departments and mobile use. A wide colour screen with an adjustable angle sits above a full control panel, the probe rests in a holder on the side of the unit, and a built-in handle makes it easy to carry between rooms.

SUPPLIED WITH / OPTIONS

- Probes, carry case, printer and other accessories available on request.

SPECIFICATIONS

Brand	SEFAKOY	Category	X-ray and Imaging
Type	Compact portable ultrasound scanner, laptop style	Display	Wide colour screen with an adjustable viewing angle
Controls	Full keyboard, trackball, control knobs and slider controls	Probe holder	Probe holder on the side of the unit, with cable management
Carrying	Built-in carry handle	Rear panel	Rear compartment with cable connections
Screen size	Confirmed in your quotation	Probes	Confirmed in your quotation
Imaging modes	Confirmed in your quotation	Battery	Confirmed in your quotation
Storage and connectivity	Confirmed in your quotation	Dimensions and weight	Confirmed in your quotation

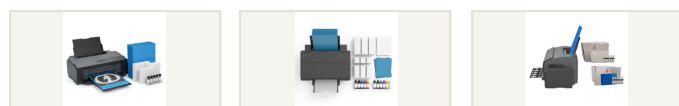

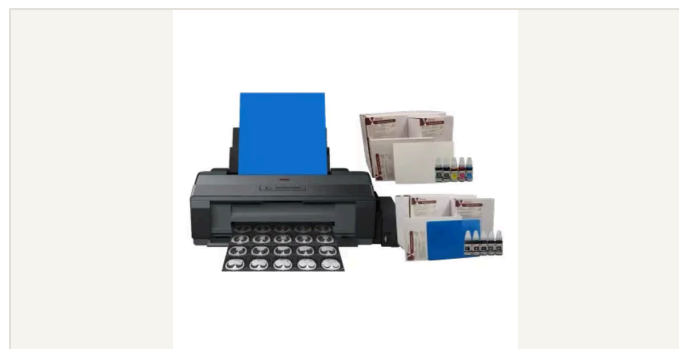

KEY FEATURES

- Compact laptop-style design with a built-in carry handle, so one scanner can serve several rooms.
- Full control panel with a keyboard, trackball, control knobs and slider controls for measurements and image adjustment.
- Rear compartment with cable connections, kept tidy behind the screen.
- Wide colour screen with an adjustable viewing angle, and a body that closes up for transport and storage.
- Probe holder on the side of the unit keeps the probe and its cable within reach and out of the way.
- Dark, hard-wearing body with a silver trim and smooth surfaces that are easy to wipe down.

To quote this model, tell us: Required quantity and destination · Where it will be used: clinic, ward, emergency department or mobile service · Types of examination and the probes you need · Storage, printing and connectivity requirements · Power supply and plug type for your country

39 FILM PRINTERS AND SUPPLIES

Medical Film Printer with Supply Kit

OVERVIEW

A large-format medical film printer from SEFAKOY for imaging departments, clinics and diagnostic centres that print scans on film. It loads film from the top, delivers printed images to a front tray, and comes with a supply kit of film sheets, print sheets and refillable ink bottles, so you can start printing straight away.

SUPPLIED WITH / OPTIONS

- Additional film sheets, print sheets and ink bottles available on request.

SPECIFICATIONS

Brand	SEFAKOY	Category	X-ray and Imaging
Type	Large-format medical film printer with supply kit	Printing method	Ink printing with refillable ink bottles
Paper and film feed	Top-loading sheet feeder for film and print sheets	Output	Front output tray for printed images
Typical use	Printing medical scans, such as chest and CT images, on film	Supply kit	Printer supplied with film sheets, print sheets and ink bottles
Print size	Confirmed in your quotation	Print quality	Confirmed in your quotation
Film type and quantity	Confirmed in your quotation	Connectivity	Confirmed in your quotation
Power supply	Confirmed in your quotation	Dimensions and weight	Confirmed in your quotation

KEY FEATURES

- Large-format printing, suited to medical images such as chest and CT scans printed on film.
- Front output tray that delivers each printed image flat and ready to hand over.
- Supply kit with film sheets, print sheets and ink, packed and ready to use.
- Top-loading sheet feeder that holds a stack of film, so several images can be printed in one run.
- Refillable ink bottles in several colours, so the printer can be topped up rather than replaced.
- Compact, dark body that fits on a desk or workstation table in the imaging room.

To quote this model, tell us: Required quantity and destination · Where it will be used: imaging department, clinic or diagnostic centre · Print size and film type you need · Expected monthly print volume, so we can size the supply kit · Power supply and plug type for your country

40 FILM PRINTERS AND SUPPLIES

Ultrasound Thermal Printer

OVERVIEW

A compact thermal printer from SEFAKOY for printing ultrasound images. It sits beside the ultrasound machine, prints images on a roll of thermal paper and feeds them out of a front slot, so a patient can leave with a copy of the scan. Front buttons and two adjustment knobs keep it simple to use, and the roll loads under a lift-up top cover.

SUPPLIED WITH / OPTIONS

- Thermal paper rolls and connection cables available on request.

SPECIFICATIONS

Brand	SEFAKOY	Category	X-ray and Imaging
Type	Compact thermal printer for ultrasound images	Printing method	Thermal printing on roll paper
Media	Paper roll loaded under a lift-up top cover	Output	Printed images fed out of a front slot
Controls	Front control buttons and two adjustment knobs	Display	Small status display on the front panel
Body	Compact desktop unit, light-coloured casing	Print size	Confirmed in your quotation
Print quality	Confirmed in your quotation	Paper type and roll size	Confirmed in your quotation
Input connections	Confirmed in your quotation	Power supply	Confirmed in your quotation
Dimensions and weight	Confirmed in your quotation		

KEY FEATURES

- Prints ultrasound images on thermal paper, so no ink or toner needs to be bought or refilled.
- Roll paper loads under a lift-up top cover, so changing a roll is quick.
- Front control buttons and two adjustment knobs for quick, simple operation.
- Compact desktop body that fits on the ultrasound trolley shelf or a nearby table.
- Printed images feed out of a front slot, one after another on the same strip.
- Small status display on the front panel.

To quote this model, tell us: Required quantity and destination · The ultrasound machine it will be used with, so we can check the connection · Paper roll size and how many rolls you need · Expected daily print volume · Power supply and plug type for your country

41 **ULTRASOUND TROLLEYS**

Mobile Ultrasound Trolley

OVERVIEW

A mobile trolley for carrying a portable ultrasound machine from room to room, supplied by SEFAKOY. A work platform with a push handle holds the machine, probe holders on the side keep the probes within reach, and a shelf and base tray store gel, paper and accessories. It rolls on four castors with brake pedals, so it stays put when the scan begins.

SUPPLIED WITH / OPTIONS

- Additional probe holders, printer shelf and other accessories available on request.

SPECIFICATIONS

Category	X-ray and Imaging	Type	Mobile trolley for an ultrasound machine
Top platform	Work platform with a push handle and a rim at the back	Probe holders	Three probe holders on the side of the platform
Cable hook	Upright post with hooks for cables	Storage	Lower shelf between the column legs, plus a base tray
Frame	Twin-column frame in grey, with a light-coloured platform and base	Mobility	Four twin-wheel castors, with brake pedals
Compatible machines	Confirmed in your quotation	Maximum load	Confirmed in your quotation
Platform size	Confirmed in your quotation	Height and adjustment	Confirmed in your quotation
Dimensions and weight	Confirmed in your quotation		

KEY FEATURES

- Work platform with a push handle, so staff can steer the trolley with one hand.
- Upright post with hooks to keep cables tidy and off the floor.
- Four twin-wheel castors with brake pedals for smooth movement and a stable stop.
- Three probe holders on the side of the platform keep probes and their cables within reach.
- Lower shelf and base tray for gel, paper, printer supplies and other accessories.
- Sturdy twin-column frame in grey with light-coloured surfaces that are easy to wipe down.

To quote this model, tell us: Required quantity and destination · The ultrasound machine it must carry, so we can check that it fits · Where it will be used and the floor type, so we can confirm the castors · Accessories you need, such as extra holders or a printer shelf

42 ULTRASOUND MACHINES

Cart-Type Ultrasound System

OVERVIEW

A cart-type ultrasound system from SEFAKOY for hospital imaging departments and larger clinics. A large colour monitor on an articulating arm sits above a control panel with a keyboard, trackball, controls and a built-in touchscreen. Four probe connectors on the front of the cart let several probes stay connected, holders on both sides keep them within reach, and a closed compartment stores accessories.

SUPPLIED WITH / OPTIONS

- Probes, printer, recording devices and other accessories available on request.

SPECIFICATIONS

Brand	SEFAKOY	Category	X-ray and Imaging
Type	Cart-type ultrasound system	Main monitor	Large flat-panel colour monitor on an articulating arm
Control panel	Keyboard, trackball, control knobs and slider controls	Touchscreen	Second display built into the control panel
Probe connections	Four probe connectors on the front of the cart	Probe holders	Holders on both sides of the control panel
Storage	Closed storage compartment in the cart body	Handling	Push handle on the control panel
Mobility	Four twin-wheel castors with brake pedals	Monitor size	Confirmed in your quotation
Probes and imaging modes	Confirmed in your quotation	Storage and connectivity	Confirmed in your quotation
Power supply	Confirmed in your quotation	Dimensions and weight	Confirmed in your quotation

KEY FEATURES

- Large flat-panel colour monitor on an articulating arm that can be positioned for the person scanning and for others in the room.
- Built-in touchscreen on the control panel for quick access to common settings.
- Probe holders on both sides of the control panel keep probes and cables within reach.
- Closed storage compartment in the cart body for accessories and supplies.
- Full control panel with a keyboard, trackball, control knobs and slider controls for measurements and image adjustment.
- Four probe connectors on the front of the cart, so several probes can stay connected during a busy list.
- Push handle and four twin-wheel castors with brake pedals for easy movement and a stable stop.

To quote this model, tell us: Required quantity and destination · Where it will be used: imaging department, clinic or ward · Types of examination and the probes you need · Storage, printing and network connection requirements · Power supply and plug type for your country

43 URINE ANALYZERS

Urine Analyzer

OVERVIEW

A compact benchtop urine analyzer for clinics, laboratories and hospital wards, supplied by SEFAKOY. The operator dips a test strip, places it on the slide-out tray and the analyzer reads it and shows the result on a backlit display, with a built-in printer for a printed record. A numeric keypad with function keys makes it simple to enter sample details and run tests.

SUPPLIED WITH / OPTIONS

- Test strips, printer paper and other consumables available on request.

SPECIFICATIONS

Category	Laboratory Equipment	Type	Benchtop urine analyzer (test strip reader)
Display	Backlit LCD text display	Keypad	Numeric keypad with function keys and an Enter key
Test strip handling	Slide-out strip tray on the right-hand side	Printer	Built-in printer with a paper compartment on the top of the unit
Body	Compact benchtop unit, white casing with a dark base	Test strips supported	Confirmed in your quotation
Parameters measured	Confirmed in your quotation	Testing speed	Confirmed in your quotation
Memory	Confirmed in your quotation	Interfaces	Confirmed in your quotation
Power supply	Confirmed in your quotation	Dimensions and weight	Confirmed in your quotation

KEY FEATURES

- Compact benchtop design that fits on a laboratory bench or clinic desk.
- Backlit LCD display that shows the operating messages and the results.
- Built-in printer with a paper compartment on top, so a printed result is ready straight away.
- Slide-out strip tray on the side: place the dipped test strip and the analyzer reads it.
- Numeric keypad with function keys and an Enter key for entering sample numbers and running tests.
- White, wipe-clean casing on a dark base.

To quote this model, tell us: Required quantity and destination · Where it will be used: clinic, laboratory or hospital ward · Expected number of urine tests per day · Test strips and printer paper you need to be supplied with it · Power supply and plug type for your country

44 CENTRIFUGES

Laboratory Centrifuge

800-1

OVERVIEW

The 800-1 is a compact benchtop laboratory centrifuge from SEFAKOY for clinics, laboratories and blood collection points. It spins six 20 ml tubes at speeds up to 4,000 rpm, with a timer of up to 60 minutes, and two front knobs set the speed and the time. A clear lid with a latch keeps the rotor covered and visible while it runs. Figures shown are typical for this model; your quotation confirms the exact specification, voltage and plug.

SUPPLIED WITH / OPTIONS

- Tube racks and replacement rotors available on request.

SPECIFICATIONS

Size	L245 × W245 × H230 mm (typical for this model)	Brand	SEFAKOY
Model	800-1	Category	Laboratory Equipment
Type	Benchtop low-speed laboratory centrifuge	Maximum speed	4,000 rpm, adjustable with a speed knob
Maximum relative centrifugal force	About 1,790 ×g	Timer	0-60 minutes, set with a timer knob
Rotor and capacity	Fixed-angle rotor, 6 tubes × 20 ml (120 ml)	Controls	Two front knobs: speed and timer, on a labelled front panel
Lid	Clear lid with a latch, so the rotor can be seen while running	Stability	Rubber feet on the base
Body	Compact white casing	Power	About 25 W (typical for this model)
Voltage and plug	Confirmed in your quotation	Weight	Confirmed in your quotation

KEY FEATURES

- Speed adjustable up to 4,000 rpm, giving relative centrifugal force of about 1,790 ×g for everyday separation work.
- Fixed-angle rotor takes six 20 ml tubes, 120 ml in total, per run.
- Clear lid with a latch keeps the rotor covered and lets the operator see it while it runs.
- Compact white body that fits easily on a laboratory bench and wipes clean.
- Timer from 0 to 60 minutes, set with a simple front knob.
- Two-knob control on a clearly labelled front panel: one for speed, one for time.
- Rubber feet on the base keep the centrifuge steady on the bench.

To quote this model, tell us: Required quantity and destination · Where it will be used: clinic, laboratory or blood collection point · Tube sizes you spin most often · Mains voltage and plug type for your country

45 CENTRIFUGES

Refrigerated Laboratory Centrifuge

OVERVIEW

A benchtop refrigerated laboratory centrifuge from SEFAKOY for laboratories, blood banks and research work where samples must stay cool while they spin. A cooled stainless steel chamber with a rubber seal holds a rotor with a ring of tube positions, the hinged lid opens fully for loading, and a front panel with an LCD display and function keys sets speed, time and temperature.

SUPPLIED WITH / OPTIONS

- Additional rotors, adapters and tube racks available on request.

SPECIFICATIONS

Brand	SEFAKOY	Category	Laboratory Equipment
Type	Benchtop refrigerated laboratory centrifuge	Cooling	Refrigerated chamber, with ventilation grilles for the cooling system
Chamber	Stainless steel chamber with a rubber seal around the opening	Lid	Hinged lid that opens upwards, in a contrasting blue
Rotor	Rotor with a ring of tube positions	Display	LCD display for speed, time and temperature
Controls	Front control panel with function buttons and start / stop keys	Body	Compact benchtop casing, white with a blue control panel
Maximum speed and RCF	Confirmed in your quotation	Temperature range	Confirmed in your quotation
Capacity and rotors	Confirmed in your quotation	Timer	Confirmed in your quotation
Power supply	Confirmed in your quotation	Dimensions and weight	Confirmed in your quotation

KEY FEATURES

- Refrigerated chamber keeps samples cool during the run, for temperature-sensitive work.
- Hinged lid opens upwards for easy loading and unloading of the rotor.
- LCD display on the front panel shows the settings at a glance.
- Ventilation grilles on the side for the cooling system, and a compact body that fits on a laboratory bench.
- Stainless steel chamber with a rubber seal around the opening, easy to keep clean.
- Rotor with a ring of tube positions for spinning several tubes in one run.
- Function buttons and start / stop keys keep operation simple.

To quote this model, tell us: Required quantity and destination · Where it will be used: laboratory, blood bank or research · Tube types and sizes you spin, and how many at a time · Speed and temperature you need · Mains voltage and plug type for your country

46 LABORATORY REFRIGERATORS

DL-158 Liter Freestanding Fridge

OVERVIEW

A 158-litre freestanding single-door refrigerator for laboratories, clinics and pharmacies, supplied by SEFAKOY. A white cabinet with a teal top panel stands on the floor or fits under a bench, and a key lock and a digital temperature display sit on the top panel where they are easy to see. The single solid door has a vertical teal handle.

SUPPLIED WITH / OPTIONS

- Additional shelves, baskets, a thermometer and alarm options available on request.

SPECIFICATIONS

Capacity	158 litres	Category	Laboratory Equipment
Type	Freestanding laboratory / medical refrigerator with a single door	Cabinet	White cabinet with a teal-coloured top panel
Door	Single solid door with a vertical teal handle	Lock	Key lock on the top panel
Display	Digital temperature display on the top panel, next to the lock	Installation	Freestanding, compact size that fits under a counter or bench
Power cable	Mains cable exits at the rear	Temperature range	Confirmed in your quotation
Cooling system and refrigerant	Confirmed in your quotation	Shelves and internal layout	Confirmed in your quotation
Alarms and data logging	Confirmed in your quotation	Dimensions	Confirmed in your quotation
Voltage, plug and power use	Confirmed in your quotation	Weight	Confirmed in your quotation

KEY FEATURES

- 158-litre capacity in a compact freestanding cabinet.
- Digital temperature display on the top panel, easy to read without opening the door.
- White cabinet with a teal top panel and handle that is easy to recognise and wipe clean.
- Smooth, plain sides and top that fit neatly beside other equipment.
- Compact size that can stand alone or fit under a bench or counter.
- Key lock on the top panel helps keep the contents secure.
- Vertical door handle that is easy to grip.

To quote this model, tell us: Required quantity and destination · What it will store: samples, reagents, medicines or vaccines · Temperature range you need to hold, and any alarm or data-logging requirement · Mains voltage and plug type for your country

47 OXYGEN REGULATORS

Oxygen Regulator with Flowmeter

OVERVIEW

An oxygen regulator with flowmeter from SEFAKOY for hospitals, clinics, ambulances and home-care use with oxygen cylinders. A pressure gauge in a green protective boot shows the cylinder pressure, a clear glass flowmeter shows the flow being delivered, and a control valve sets the flow. The chrome-plated body screws onto the cylinder and the outlet connector takes the humidifier or tubing.

SUPPLIED WITH / OPTIONS

- Humidifier bottles, tubing and connection adapters available on request.

SPECIFICATIONS

Brand	SEFAKOY	Category	Medical Gas and Suction
Type	Oxygen regulator with flowmeter	Cylinder pressure gauge	Dial gauge with a green rubber protective boot and coloured zones on the scale
Flowmeter	Clear glass tube with a printed scale	Flow control	Green control valve for setting the flow
Body	Chrome-plated metal body	Cylinder connection	Threaded inlet with nut, for connection to the cylinder valve
Outlet	Threaded outlet connector at the bottom of the flowmeter	Marking	Marked "OXYGEN REGULATOR" on the body
Flow range	Confirmed in your quotation	Inlet pressure rating	Confirmed in your quotation
Inlet connection standard	Confirmed in your quotation	Outlet connection	Confirmed in your quotation
Weight	Confirmed in your quotation		

KEY FEATURES

- Pressure gauge in a green rubber boot protects the dial and makes the cylinder pressure easy to read.
- Clear glass flowmeter with a printed scale shows the flow being delivered.
- Chrome-plated metal body that is hard-wearing and easy to wipe clean.
- Clearly marked OXYGEN REGULATOR on the body.
- Coloured zones on the gauge scale show at a glance when the cylinder is running low.
- Green control valve for setting and adjusting the flow.
- Threaded outlet connector below the flowmeter for a humidifier bottle or oxygen tubing.

To quote this model, tell us: Required quantity and destination · Where it will be used: ward, theatre, ambulance or home care · Cylinder valve connection standard used in your country · Flow range you need and whether a humidifier bottle should be included

48 SUCTION MACHINES

Mobile Suction Machine

OVERVIEW

A mobile electric suction machine from SEFAKOY for operating theatres, emergency departments and wards. Two large transparent collection jars with printed scales sit on a column above a wheeled base, so the operator can see what has been collected, and a vacuum gauge, power switch and regulator knob on the control head keep operation simple. A flat tray on top holds small items and the four castors let it move to the patient.

SUPPLIED WITH / OPTIONS

- Spare jars, lids, tubing and disposable liners available on request.

SPECIFICATIONS

Brand	SEFAKOY	Category	Medical Gas and Suction Equipment
Type	Mobile electric suction machine with two collection jars	Collection jars	Two large transparent jars with printed volume scales, lids and carrying handles
Vacuum gauge	Dial gauge on the control head	Controls	Power switch with indicator light and a vacuum regulator knob
Frame	Metal column frame that holds the jars and tubing	Top surface	Flat tray on top for small items
Mobility	Four castors under the base	Housing	White casing that wipes clean
Maximum vacuum	Confirmed in your quotation	Suction flow rate	Confirmed in your quotation
Jar capacity	Confirmed in your quotation	Power supply	Confirmed in your quotation
Dimensions and weight	Confirmed in your quotation		

KEY FEATURES

- Two large transparent collection jars with printed volume scales, so the amount collected can be seen at a glance.
- Vacuum gauge on the control head shows the working vacuum.
- Metal column frame holds the jars and tubing in a tidy, upright arrangement.
- Four castors for moving the machine to the patient, and a white housing that wipes clean.
- Jars have lids and carrying handles, so they can be lifted off for emptying and cleaning.
- Power switch with an indicator light and a regulator knob for setting the vacuum.
- Flat tray on the top surface for small items or accessories.

To quote this model, tell us: Required quantity and destination · Where it will be used: operating theatre, emergency department or ward · Vacuum level and flow rate you need · Jar size and whether you want disposable liners · Mains voltage and plug type for your country

49 IV STANDS

Mobile IV Stand

OVERVIEW

A mobile IV stand from SEFAKOY for wards, emergency departments, theatres and clinics. A polished metal telescopic pole is set to the height you need and locked with a hand knob, hooks at the top hold infusion bags, and a four-leg cross base on castors lets it move with the patient. It is light to push and easy to wipe clean.

SUPPLIED WITH / OPTIONS

- Four-hook top, pump holders and baskets available on request.

SPECIFICATIONS

Brand	SEFAKOY	Category	Hospital Accessories
Type	Mobile IV stand (infusion stand) on castors	Pole	Polished metal telescopic pole
Height adjustment	Telescopic, locked in position with a hand knob	Hooks	Hooks at the top for hanging infusion bags; two-hook top, four-hook version on request
Base	Four-leg cross-shaped metal base	Mobility	Four castors, one at the end of each leg
Finish	Polished chrome-look metal finish	Height range	Confirmed in your quotation
Maximum load	Confirmed in your quotation	Base size	Confirmed in your quotation
Material grade	Confirmed in your quotation	Weight	Confirmed in your quotation

KEY FEATURES

- Telescopic pole that adjusts to the height you need and locks with a hand knob.
- Four-leg cross base for a stable footprint that stays upright when moved.
- Polished metal finish that is smooth and easy to wipe down.
- Hooks at the top hold infusion bags; a four-hook version is available on request.
- Four castors let staff move the stand smoothly with the patient.
- Slim pole that takes little room beside a bed or trolley.

To quote this model, tell us: Required quantity and destination · Where it will be used: ward, emergency, theatre or clinic · Number of hooks you need: two or four · Height range and any extras, such as pump holders or a basket

50

PATIENT POSITIONING AIDS

Multi-Functional Patient Turning Device

OVERVIEW

A multi-functional patient turning device from SEFAKOY, a foam-filled positioning aid for wards, long-term care and home nursing. Its U-shaped body with two side arms and a raised centre support cradles the patient, and the curved base lets carers turn and hold them in a new position with less effort. The smooth green cover wipes clean between patients.

SUPPLIED WITH / OPTIONS

- Spare covers and other positioning aids available on request.

SPECIFICATIONS

Brand	SEFAKOY	Category	Hospital Accessories
Type	Patient turning and positioning aid for use in bed	Shape	U-shaped padded body with two side arms and a raised centre support
Base	Curved base that allows a gentle rocking movement	Filling	Foam-filled
Cover	Smooth green wipe-clean cover	Fastening	Side flap and seam panel on the sides
Dimensions	Confirmed in your quotation	Foam density and firmness	Confirmed in your quotation
Cover material and fire rating	Confirmed in your quotation	Maximum patient weight	Confirmed in your quotation
Colours available	Confirmed in your quotation	Cleaning and disinfection	Confirmed in your quotation
Weight	Confirmed in your quotation		

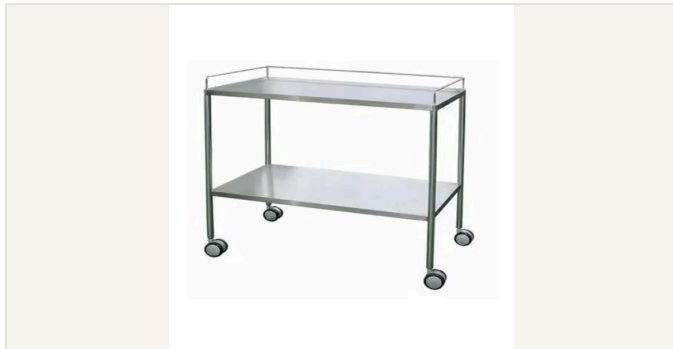

KEY FEATURES

- U-shaped body with two side arms and a raised centre support that cradles the patient.
- Foam-filled body that is soft against the patient and holds its shape.
- Side flap and seam panel for a neat, secure finish.
- Curved base allows a gentle rocking movement, so carers can turn and hold a patient with less effort.
- Smooth green cover that wipes clean between patients.
- Lightweight and easy to move, store and use on the bed, at the ward or at home.

To quote this model, tell us: Required quantity and destination · Where it will be used: ward, long-term care or home nursing · Patient size range you need to support · Cover colour and any cleaning or fire-safety requirements

51 TROLLEYS

Nursing Trolley

OVERVIEW

A stainless steel nursing trolley from SEFAKOY for wards, treatment rooms and clinics. Two flat stainless steel shelves are held on a round-tube frame, with a raised rail around three sides of the top shelf to keep items from sliding off. Four swivel castors, some with a locking brake, let staff move it to the bedside and hold it steady. The smooth brushed surface wipes clean between uses.

SUPPLIED WITH / OPTIONS

- Drawers, side rails, waste bags and other accessories available on request.

SPECIFICATIONS

Brand	SEFAKOY	Category	Hospital Accessories
Type	Two-shelf stainless steel nursing trolley on castors	Material	Stainless steel tube frame and stainless steel shelves
Shelves	Two flat shelves, upper and lower	Top shelf edge	Raised rail around three sides of the top shelf, open on one long side
Frame	Four round tube legs joined to the shelves	Castors	Four swivel castors with grey wheels, some with a locking brake
Finish	Brushed stainless steel, smooth and easy to wipe clean	Overall dimensions	Confirmed in your quotation
Shelf size	Confirmed in your quotation	Load capacity per shelf	Confirmed in your quotation
Stainless steel grade	Confirmed in your quotation	Castor diameter	Confirmed in your quotation
Weight of the trolley	Confirmed in your quotation		

KEY FEATURES

- Stainless steel frame and shelves, strong enough for daily use and quick to wipe down.
- Raised rail around three sides of the top shelf helps keep items in place, with one open side for easy reach.
- Locking castors let staff hold the trolley steady beside a bed or bench.
- Round-tube legs joined firmly to the shelves for a stable trolley.
- Two flat shelves for instruments, dressings, medication trays and supplies.
- Four swivel castors with grey wheels for smooth, quiet movement.
- Simple, open design without corners where dirt can collect.

To quote this model, tell us: Required quantity and destination · Where it will be used: ward, treatment room, clinic or theatre · Size and load you need for the items it will carry · Whether you want all castors braked, and any drawers or rails added

52 TROLLEYS

Emergency Trolley

OVERVIEW

An emergency (crash) trolley from SEFAKOY for wards, emergency departments and resuscitation areas, where drugs and equipment must be ready and easy to find. Five drawers on the front hold emergency supplies, with red security seals and a key lock to show the trolley has not been opened. A large flat top with a raised edge and rail gives a working surface, a slim IV pole rises from one corner, and a swing-out side tray, wire basket and bins carry extra items. Four braked castors let it reach the bedside quickly.

SUPPLIED WITH / OPTIONS

- Defibrillator shelf, oxygen cylinder holder, additional baskets and bins available on request.

SPECIFICATIONS

Brand	SEFAKOY	Category	Hospital Accessories
Type	Emergency (crash) trolley with drawers, side accessories and an IV pole	Body	Blue moulded top and frame with grey drawer fronts and a stainless-look side rail
Drawers	Five drawers stacked down the front, four shallow and one deep, with blue label strips	Drawer security	Red breakaway-style security seals and a key lock on the side
Worktop	Large, flat blue top with a raised edge, recessed handle-grips and a stainless-look rail	IV pole	Slim pole with hooks fixed to the top corner
Side tray	Grey tray with a round central fitting on a swing-out arm at the top of one side	Side accessories	Grey wire basket with a yellow sharps-style container, and a grey waste bin fitted on the sides
Castors	Four twin-wheel castors with grey wheels and brake pedals, on blue corner bumpers	Overall dimensions	Confirmed in your quotation
Drawer sizes and layout	Confirmed in your quotation	Body material	Confirmed in your quotation
Load capacity	Confirmed in your quotation	Weight of the trolley	Confirmed in your quotation

KEY FEATURES

- Five drawers on the front keep drugs and emergency supplies sorted and ready.
- Blue label strips on each drawer for quick identification of the contents.
- Slim IV pole with hooks fixed to a corner of the top.
- Four twin-wheel castors with brake pedals, on corner bumpers that protect walls and doors.
- Red security seals and a key lock help show that the trolley is complete and has not been opened.
- Large, flat top with a raised edge and a rail, so equipment stays put while the trolley moves.
- Swing-out side tray, wire basket with a sharps-style container, and a waste bin add extra storage.

To quote this model, tell us: Required quantity and destination · Where it will be used: ward, emergency department, resuscitation area or theatre · Drawer layout and accessories you need, such as a defibrillator shelf or oxygen holder · Whether you need security seals, a key lock or a combination lock

53 TROLLEYS

Treatment Trolley with One Drawer

OVERVIEW

A stainless steel treatment trolley with one drawer from SEFAKOY, for treatment rooms, wards and clinics. A flat top shelf with a raised rail on three sides holds instruments and dressings, a drawer beneath it keeps smaller items out of sight, and a lower shelf stores supplies. Four twin-wheel swivel castors, some with a foot brake, let staff wheel it to the bedside and lock it in place. Wipe it down with a damp cloth and disinfectant after each patient.

SUPPLIED WITH / OPTIONS

- Additional drawers, side rails, waste bags and other accessories available on request.

SPECIFICATIONS

Brand	SEFAKOY	Category	Hospital Accessories
Type	Stainless steel treatment trolley with one drawer	Material	Brushed stainless steel throughout
Top shelf	Flat top with a raised rail around three sides	Drawer	One drawer under the top shelf, with a stainless steel pull handle
Lower shelf	One flat lower shelf with a shallow raised lip	Frame	Four round tube legs joined to the shelves
Castors	Four twin-wheel swivel castors with grey wheels, some with a foot brake	Finish	Smooth brushed surface that wipes clean
Overall dimensions	Confirmed in your quotation	Shelf and drawer size	Confirmed in your quotation
Load capacity	Confirmed in your quotation	Stainless steel grade	Confirmed in your quotation
Castor diameter	Confirmed in your quotation	Weight of the trolley	Confirmed in your quotation

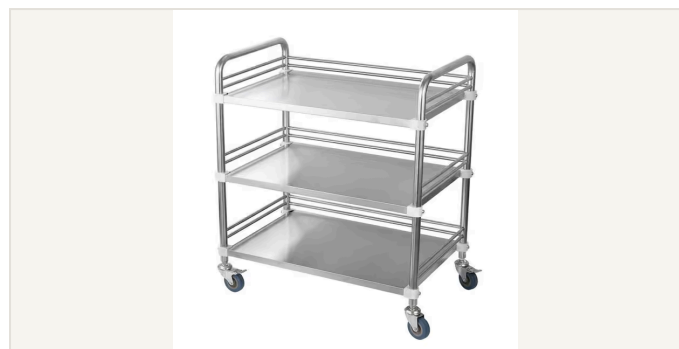

KEY FEATURES

- Brushed stainless steel throughout, strong, hygienic and easy to wipe clean.
- One drawer with a stainless steel pull handle keeps small items and consumables tidy.
- Four twin-wheel swivel castors with grey wheels for smooth, quiet movement.
- Simple, open frame of round tubes with no corners where dirt can collect.
- Flat top shelf with a raised rail on three sides to keep items from sliding off.
- Lower shelf with a shallow raised lip for extra supplies.
- Foot brakes on some castors hold the trolley steady while in use.

To quote this model, tell us: Required quantity and destination · Where it will be used: treatment room, ward, clinic or theatre · Size and load you need for the items it will carry · Whether you want all castors braked, and any extra drawers or rails

54 TROLLEYS

Stainless Steel Detachable Three-Layer Trolley

OVERVIEW

A stainless steel three-layer trolley from SEFAKOY, of detachable construction, for wards, treatment rooms, sterile supply and clinics. Three flat stainless steel shelves, each edged with raised rails so items stay in place, are held on a round-tube frame by white connectors. A rounded handle at one end makes it easy to push, and four swivel castors with brake levers let staff move it and brake it where it is needed. The shelves come apart for thorough cleaning.

SUPPLIED WITH / OPTIONS

- Additional shelves, drawers, side rails and other accessories available on request.

SPECIFICATIONS

Brand	SEFAKOY	Category	Hospital Accessories
Type	Stainless steel three-layer trolley, with a detachable (assembled) construction	Material	Stainless steel tube frame and stainless steel shelves
Shelves	Three flat shelves, each with raised rails along the edges	Shelf edges	Several parallel rails along the long sides and ends of each shelf, so items do not slide off
Handle	Rounded tube handle formed by the upright tubes at one end	Joints	White plastic connectors where the shelves join the uprights
Castors	Four swivel castors with grey-blue wheels, with brake levers	Finish	Brushed stainless steel, smooth and easy to wipe clean
Overall dimensions	Confirmed in your quotation	Shelf size and spacing	Confirmed in your quotation
Load capacity per shelf	Confirmed in your quotation	Stainless steel grade	Confirmed in your quotation
How the trolley detaches	Confirmed in your quotation	Weight of the trolley	Confirmed in your quotation

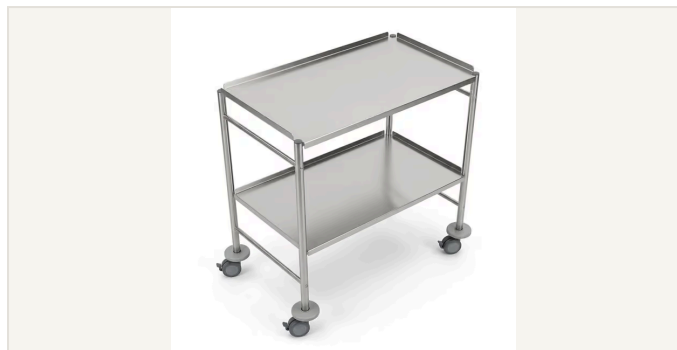

KEY FEATURES

- Steel frame and shelves that stand up to daily cleaning.
- Raised rails along the edges of each shelf keep items from sliding off while the trolley moves.
- Rounded handle at one end for easy pushing and steering.
- Open frame with no corners where dirt can collect.
- Three flat shelves give generous space for instruments, supplies and trays.
- White connectors join the shelves to the uprights, in a construction that can be taken apart.
- Four swivel castors with brake levers for smooth movement and a steady stop.

To quote this model, tell us: Required quantity and destination · Where it will be used: ward, treatment room, sterile supply or clinic · Size and load you need for the items it will carry · Whether you need it delivered assembled or flat-packed for assembly on site

55 TROLLEYS

Instrument Trolley 540×370×90cm

OVERVIEW

A stainless steel instrument trolley from SEFAKOY, size 540 × 370 × 90 cm, for treatment rooms, theatres, sterile supply and wards. Two flat stainless steel shelves are held on a round-tube frame with cross-bars, the top shelf edged with a low raised rim so instruments and trays stay in place. Four swivel castors with grey wheels and brake levers let staff roll it into position and brake it. Its plain brushed finish is quick to clean between procedures.

SUPPLIED WITH / OPTIONS

- Drawers, side rails, extra shelves and other accessories available on request.

SPECIFICATIONS

Size	540 × 370 × 90 cm	Brand	SEFAKOY
Category	Hospital Accessories	Type	Two-shelf stainless steel instrument trolley on castors
Material	Stainless steel tube frame and stainless steel shelves	Shelves	Two flat shelves, upper and lower
Shelf edges	Slightly raised edge on the top shelf and a low lip on the lower shelf	Frame	Four round tube legs with cross-bars between the leg pairs
Castors	Four swivel castors with grey wheels, set on grey bumper discs, with brake levers	Finish	Brushed stainless steel, smooth and easy to wipe clean
Load capacity per shelf	Confirmed in your quotation	Shelf size and spacing	Confirmed in your quotation
Stainless steel grade	Confirmed in your quotation	Castor diameter	Confirmed in your quotation
Weight of the trolley	Confirmed in your quotation		

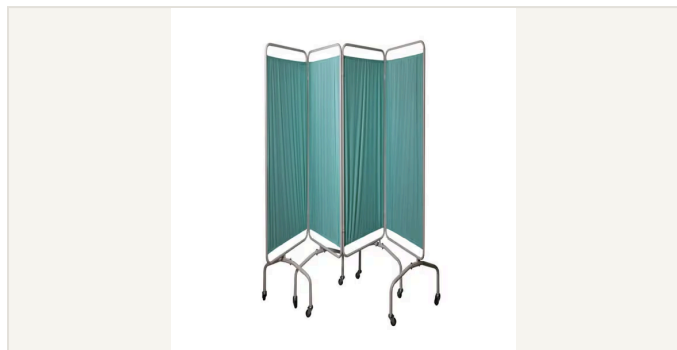

KEY FEATURES

- Stainless steel throughout, so it copes with regular disinfection.
- Slightly raised edge on the top shelf helps keep items in place.
- Four swivel castors with grey wheels for smooth, quiet movement.
- Grey bumper discs around the castors help protect walls and doors.
- Two flat shelves for instruments, trays and supplies.
- Cross-bars between the leg pairs add rigidity to the frame.
- Brake levers on the castors hold the trolley steady while in use.

To quote this model, tell us: Required quantity and destination · Where it will be used: treatment room, theatre, sterile supply or ward · Load you need each shelf to carry · Whether you want all castors braked, and any drawers or rails added

56 WARD SCREENS

Folding Screen 4 Folds

OVERVIEW

A four-fold folding screen from SEFAKOY, for giving patients privacy on wards, in treatment rooms and in clinics. Four teal green fabric panels, each in its own light grey metal frame, are joined by hinges so the screen can be opened in a zig-zag or folded flat. Curved feet with castors under each panel let staff wheel it into place and stand it steady. The pleated fabric wipes clean, and the screen folds into a narrow bundle for storage.

SUPPLIED WITH / OPTIONS

- Replacement fabric panels, castors and other accessories available on request.

SPECIFICATIONS

Brand	SEFAKOY	Category	Hospital Accessories
Type	Folding privacy screen (ward screen) on castors	Panels	4 folding panels (four folds)
Panel fabric	Teal green, pleated, wipe-clean fabric stretched within each frame	Frame	Light grey painted metal tube frame, one frame per panel
Hinges	Hinges between the panels, letting the screen fold flat or open in a zig-zag	Base	Curved metal feet under each panel, carrying castors
Castors	Small castors on the feet, so the screen rolls when moved	Folding	Folds compactly into a narrow bundle for storage
Overall height and width	Confirmed in your quotation	Height of each panel	Confirmed in your quotation
Fabric material and flame retardancy	Confirmed in your quotation	Colours available	Confirmed in your quotation
Weight of the screen	Confirmed in your quotation		

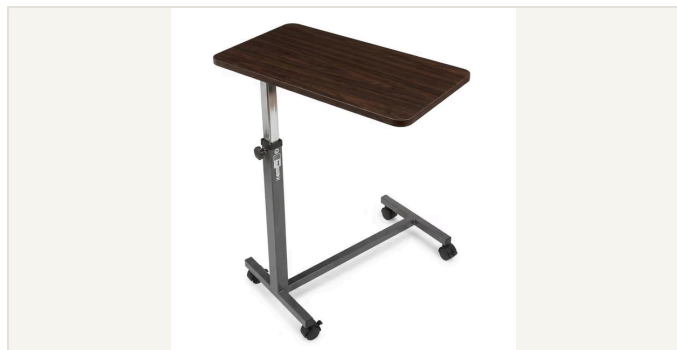

KEY FEATURES

- Four folding panels give a wide, private space around a bed or examination couch.
- Hinges between the panels let the screen open in a zig-zag for stability, or fold flat.
- Curved feet with castors under each panel, so the screen rolls easily to where it is needed.
- A quick way to provide privacy without building work.
- Teal green pleated fabric, stretched within each frame and easy to wipe clean.
- Light grey painted metal frames that are light and strong.
- Folds into a narrow bundle that stores in a small space.

To quote this model, tell us: Required quantity and destination · Where it will be used: ward, treatment room, clinic or emergency department · Height and width you need, and the number of panels · Fabric colour and any flame-retardant or antibacterial requirement

57 OVER-BED TABLES

Adjustable Over-Bed Rolling Table

OVERVIEW

An adjustable over-bed rolling table from SEFAKOY, for patients who eat, read or work in bed, in wards, care homes and at home. A rectangular dark wood-grain tabletop sits on a telescopic column that raises and lowers the top, with a lever lock to hold the height, and the top tilts for reading and writing. An H-shaped grey metal base slides under the bed, and four small swivel castors let the table roll to where it is needed.

SUPPLIED WITH / OPTIONS

- Raised edge, cup holder and other accessories available on request.

SPECIFICATIONS

Brand	SEFAKOY	Category	Hospital Accessories
Type	Height-adjustable over-bed table on castors	Tabletop	Rectangular dark wood-grain tabletop with rounded corners
Tabletop tilt	Tabletop can be tilted, held by a lock under the top	Height adjustment	Telescopic column that raises and lowers the top, held by a lever lock
Column	Single metal column, chrome-look or grey painted	Base	H-shaped (or C-shaped) grey metal base that slides under the bed
Castors	Four small swivel castors on the base	Finish	Dark wood-grain top with a grey metal frame
Tabletop size	Confirmed in your quotation	Height range	Confirmed in your quotation
Tilt angle	Confirmed in your quotation	Maximum load	Confirmed in your quotation
Tabletop material	Confirmed in your quotation	Weight of the table	Confirmed in your quotation

KEY FEATURES

- Wide rectangular tabletop for meals, books, a laptop or medication trays.
- Telescopic column raises and lowers the top, held by a lever lock at the chosen height.
- H-shaped grey metal base slides under the bed, so the table can sit over the patient.
- Smooth surface and metal frame that wipe clean.
- Dark wood-grain finish with rounded corners that looks tidy on a ward or at home.
- Tilting top for reading and writing, held by a lock under the top.
- Four swivel castors for easy movement.

To quote this model, tell us: Required quantity and destination · Where it will be used: ward, care home or home use · Tabletop size and height range you need · Whether you need a tilting top, a raised edge or a cup holder

58 INFUSION PUMPS

Infusion Pump

OVERVIEW

A compact electronic infusion pump from SEFAKOY for wards, clinics and day-care units, used to deliver fluids and medication at a controlled rate. A colour screen and a keypad with clearly marked blue, green and yellow keys sit on the front panel, and a hinged door opens over the pump mechanism for loading. Its white housing wipes clean and its rubber feet keep it steady.

SUPPLIED WITH / OPTIONS

- Pole clamps, infusion sets and other accessories available on request.

SPECIFICATIONS

Brand	SEFAKOY	Category	Infusion and Injection
Type	Electronic infusion pump for ward and clinic use	Display	Colour LCD screen on the front panel
Keypad	Blue function keys on both sides of the screen, with green and yellow keys	Pump door	Hinged front door over the pump mechanism, opened with a slide latch
Top	Latch at the top of the housing	Base	Rubber feet for stable placement on a surface
Body	Compact white housing with blue accent panel	Infusion type	Confirmed in your quotation
Flow rate range and accuracy	Confirmed in your quotation	Compatible infusion sets or syringes	Confirmed in your quotation
Alarms and safety features	Confirmed in your quotation	Battery and power supply	Confirmed in your quotation
Dimensions and weight	Confirmed in your quotation		

KEY FEATURES

- Colour screen on the front panel, so settings and status can be read clearly.
- Keypad with blue function keys on both sides of the screen, plus green and yellow keys that stand out.
- Hinged front door opens with a slide latch to load the pump mechanism.
- Compact, light body that fits easily on a bedside table or stand.
- Rubber feet on the base for stable placement.
- Smooth white housing with a blue panel that wipes clean between patients.

PRESSURE INFUSION BAGS

500ml 1000ml Infusion Bag

OVERVIEW

A pressure infusion bag from SEFAKOY, shown in 500 ml and 1000 ml sizes, for delivering fluids under pressure in emergency care, theatres and wards. A white bag holds the infusion fluid inside, a blue hand bulb builds up the pressure, and a tube with a connector carries the fluid to the giving set. The bag is printed "Reusable Pressure Infusor" and carries a CE mark.

SUPPLIED WITH / OPTIONS

- Giving sets, spare bags and other infusion supplies available on request.

SPECIFICATIONS

Brand	SEFAKOY	Category	Infusion and Injection
Type	Reusable pressure infusor bag with a hand bulb and tubing	Sizes shown	500 ml and 1000 ml (marked on the bags)
Bag	White bag with blue marking panels	Pressure control	Blue hand-squeezed bulb
Tubing	Clear tube with a connector at the bag	Markings	Printed "Reusable Pressure Infusor", volume, and a CE mark
Pressure range and any gauge	Confirmed in your quotation	Bag and tube material	Confirmed in your quotation
Compatible giving sets	Confirmed in your quotation	CE certificate and other documents	Confirmed in your quotation
Pack size and carton quantity	Confirmed in your quotation		

KEY FEATURES

- Hand bulb lets the user build up pressure without a separate pump.
- White bag with clear volume marking on a blue panel.
- Tube with a connector for attaching a giving set.
- Two sizes, 500 ml and 1000 ml, for different fluid volumes.
- Printed as reusable, so the bag can be cleaned and used again.
- Compact and light to carry in an emergency bag.

To quote this model, tell us: Required quantity and destination · Which size you need: 500 ml, 1000 ml or both · Where it will be used: emergency care, theatre or ward · Giving sets you use, so we can check the connection

SYRINGES

Luer Lock Syringe

OVERVIEW

A range of Luer lock syringes supplied by SEFAKOY, for drawing up and giving fluids and medication in wards, clinics and theatres. The photo shows seven syringes from large to small, each with a clear barrel, a black graduated scale, a black plunger stopper and a finger flange. A Luer lock tip lets a needle or line be screwed on.

SUPPLIED WITH / OPTIONS

- Needles, extension lines and other injection supplies available on request.

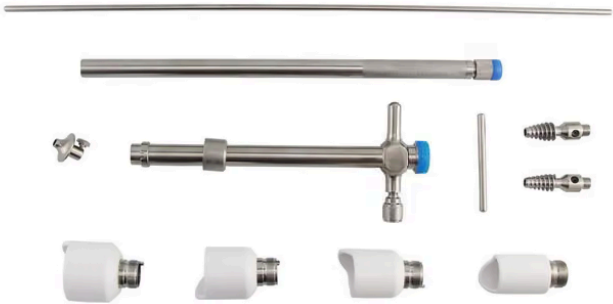

SPECIFICATIONS

Category	Infusion and Injection	Type	Luer lock syringes
Range shown	Seven sizes, from a large syringe to a small one	Barrel	Clear, with a printed black graduated scale
Plunger	White plunger with a black stopper	Tip	Luer lock (screw-on) tip
Flange	Finger flange at the barrel end	Exact sizes available (ml)	Confirmed in your quotation
Material of barrel and stopper (including latex content)	Confirmed in your quotation	Needle included or not	Confirmed in your quotation
Sterile or non-sterile	Confirmed in your quotation	Pack size and carton quantity	Confirmed in your quotation
Standards, certificates and documents	Confirmed in your quotation		

KEY FEATURES

- Luer lock tip screws on, so needles and lines stay firmly connected.
- A full range of sizes for different volumes.
- Finger flange gives a comfortable grip when pushing the plunger.
- Suitable for wards, clinics and theatres.
- Clear barrel with a printed scale for accurate reading.
- Black stopper is easy to see against the clear barrel.
- Smooth plunger movement.

INSTRUMENT COMPONENT SETS

Stainless Steel Surgical Instrument Component Set

OVERVIEW

A stainless steel surgical instrument component set from SEFAKOY for hospitals, clinics and central sterile supply departments. The set brings together a slim main tube with a textured grip and blue end cap, a long rod, a T-shaped valve body, threaded connectors and fittings, and four white adapter caps with threaded stems. Parts are supplied ready to be checked, cleaned and assembled by the user's own team.

SUPPLIED WITH / OPTIONS

- Additional connectors, caps and spare parts available on request.

SPECIFICATIONS

Brand	SEFAKOY	Category	Surgical Instruments
Type	Stainless steel surgical instrument component set	Main tube	Slim metal tube with a textured grip and a blue end cap
Long rod	Long, slender metal rod	Cross-shaped valve body	T-shaped metal body with a blue-marked control
Connectors	Threaded metal connectors and fittings in several shapes	Adapter caps	Four white caps with threaded metal stems
Small parts	Pins and small fittings supplied with the set	Colour coding	Blue markings help identify the main parts
Material grade	Confirmed in your quotation	Dimensions of each part	Confirmed in your quotation
Number of parts in the set	Confirmed in your quotation	Compatible instruments	Confirmed in your quotation
Cleaning and sterilisation method	Confirmed in your quotation		

KEY FEATURES

- Stainless steel parts that are strong and made to be handled and cleaned repeatedly.
- T-shaped valve body with a blue-marked control that is easy to find.
- Four white adapter caps with threaded stems, supplied with the set.
- Slim main tube with a textured grip for a secure hold.
- Threaded connectors and fittings in several shapes for assembly.
- Blue markings help identify the main parts when the set is laid out or assembled.

HANDHELD SURGICAL INSTRUMENTS

Pistol-Grip Surgical Instrument

OVERVIEW

A pistol-grip surgical instrument from SEFAKOY for operating theatres. A black ridged grip sits in the hand like a pistol handle, an open metal trigger lever operates the working tip, and a long, slender stainless steel shaft carries a forked, open-jaw tip. The handle, metal collar and shaft are joined by a threaded connection.

SUPPLIED WITH / OPTIONS

- Compatible sheaths, tips and spare parts available on request.

SPECIFICATIONS

Brand	SEFAKOY	Category	Surgical Instruments
Type	Pistol-grip surgical instrument with a long shaft and a forked tip	Handle	Black pistol-style grip with a ridged surface and a metal end cap
Trigger	Open metal trigger lever with a finger loop, fixed at the rear of the handle	Shaft	Long, slender stainless steel shaft
Tip	Forked, open-jaw working tip	Body sections	Handle section, metal collar and shaft joined by a threaded connection
Finish	Black grip with brushed stainless steel metal parts	Working length	Confirmed in your quotation
Tip and jaw dimensions	Confirmed in your quotation	Material grade	Confirmed in your quotation
Compatible cannulas and sheaths	Confirmed in your quotation	Cleaning and sterilisation method	Confirmed in your quotation
Weight	Confirmed in your quotation		

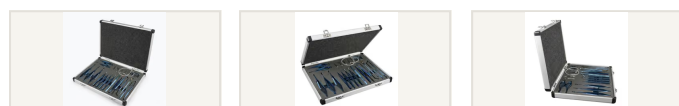

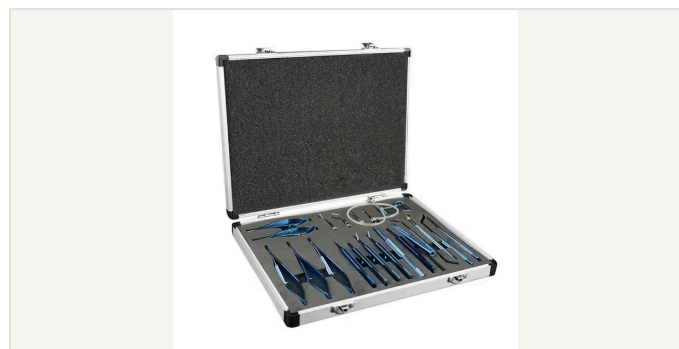

KEY FEATURES

- Pistol-style grip with a ridged surface for a secure hold in a gloved hand.
- Long, slender stainless steel shaft that reaches the working site.
- Metal collar and threaded connection between the handle section and the shaft.
- Open metal trigger lever with a finger loop, placed at the rear of the handle to operate the working tip.
- Forked, open-jaw working tip.
- Black grip with brushed stainless steel parts, easy to identify and handle.

To quote this model, tell us: Required quantity and destination · The procedure and the system or sheath it must work with, so we can confirm compatibility · Working length and tip type you need · Your cleaning and sterilisation method

63 INSTRUMENT SETS

Microsurgical Instrument Set in Carrying Case

OVERVIEW

A microsurgical instrument set from SEFAKOY, supplied in an aluminium-framed hard carrying case. About twenty fine instruments in blue-coloured metal, including scissors, forceps and needle-holder style instruments, some with curved tips, sit in a foam lining with a slot cut for each one, alongside fine tubing and small accessories. The lid latches shut and the foam inside the lid protects the instruments in transit and in storage.

SUPPLIED WITH / OPTIONS

- Additional instruments, spare accessories and replacement cases available on request.

SPECIFICATIONS

Brand	SEFAKOY	Category	Surgical Instruments
Type	Microsurgical instrument set in a hard carrying case	Instruments	About 20 fine instruments in blue-coloured metal, including scissors, forceps and needle-holder style instruments, some with curved tips
Accessories in the case	Fine tubing with a fitting, small angled tips and other small accessories	Case	Aluminium-framed hard case with two latches and a hinged lid
Case lining	Foam lining shaped with a separate slot for each instrument, and foam on the inside of the lid	Layout	Instruments laid out in rows and secured by a fabric strap and foam slots
Finish	Blue-coloured metal instruments in a dark grey case lining	Exact list of instruments	Confirmed in your quotation
Material and coating	Confirmed in your quotation	Intended specialty	Confirmed in your quotation
Case dimensions and weight	Confirmed in your quotation	Cleaning and sterilisation method	Confirmed in your quotation

KEY FEATURES

- A complete set of fine instruments in one case, ready to be checked, cleaned and used by the theatre team.
- Foam lining with a separate slot cut for each instrument, so each has its place and is protected from knocks.
- Aluminium-framed hard case with two latches and a hinged lid for carrying, transport and storage.
- Blue-coloured metal instruments, including scissors, forceps and needle-holder style instruments, some with curved tips.
- Fine tubing with a fitting and small angled tips supplied in the case.
- Foam inside the lid holds instruments in place when the case is closed.

To quote this model, tell us: Required quantity and destination · The specialty or procedures the set is for, so we can confirm the instrument list · Any instruments you want added or removed from the set · Your cleaning and sterilisation method

LIGATION CLIPS

Disposable Surgical Ligation Clips

OVERVIEW

Disposable surgical ligation clips from SEFAKOY, for closing vessels and ducts during surgery. The photo shows three long-shafted clip applicators with scissor-style handles and coloured heads in teal, purple and gold, together with the matching clips in the same colours and clip cartridge strips. The colours suggest different clip sizes.

SUPPLIED WITH / OPTIONS

- Additional cartridges and applicators available on request.

SPECIFICATIONS

Brand	SEFAKOY	Category	Surgical Instruments
Type	Disposable ligation clips with applicators	Applicators shown	Three, with long shafts and scissor-style handles
Colour coding	Teal, purple and gold heads and clips	Clips	Small clips in matching colours, with clip cartridge strips
Shaft	Long, slim metal shaft	Clip sizes and what each colour means	Confirmed in your quotation
Clip material (metal or polymer)	Confirmed in your quotation	Number of clips per cartridge and per box	Confirmed in your quotation
Applicator length and compatibility	Confirmed in your quotation	Sterile or non-sterile	Confirmed in your quotation
Standards, certificates and documents	Confirmed in your quotation		

KEY FEATURES

- Colour-coded heads and clips help identify sizes at a glance.
- Scissor-style handles for a familiar grip.
- Disposable clips, so a fresh clip is used every time.
- Compact instruments that store neatly in a theatre pack.
- Long, slim shafts reach the working site.
- Clip cartridges keep clips ready and organised.
- Applicator and clips supplied together in the photo set.

Manual Folding Wheelchair

OVERVIEW

A manual folding wheelchair from SEFAKOY for hospitals, clinics, care homes and home use. A silver-coloured metal frame carries a black padded seat and backrest, padded armrests, swing-away footrests and large rear wheels with hand rims and brake levers. Push handles at the top of the backrest let a carer steer it, and a belt across the seat adds security.

SUPPLIED WITH / OPTIONS

- Cushions, tray tables and other accessories available on request.

SPECIFICATIONS

Brand	SEFAKOY	Category	Mobility Aids
Type	Manual wheelchair, self-propelled, with a foldable frame	Frame	Silver-coloured metal tube frame, with a cross-brace under the seat
Seat and backrest	Black padded, breathable mesh-style fabric seat and backrest	Armrests	Black padded armrests on both sides
Rear wheels	Large spoked wheels with black tyres and hand rims	Front wheels	Small front castor wheels
Footrests	Two swing-away footrests with black foot plates, and a fabric calf strap	Push handles	Handles at the top of the backrest with hand-brake levers
Braking	Hand-operated brake levers on the rear wheels	Seat belt	Belt fitted across the seat
Seat width and depth	Confirmed in your quotation	Maximum user weight	Confirmed in your quotation
Folded and unfolded dimensions	Confirmed in your quotation	Weight of the wheelchair	Confirmed in your quotation

KEY FEATURES

- Foldable metal frame with a cross-brace under the seat, for storage and transport.
- Padded armrests on both sides for comfort.
- Hand-operated brake levers on the rear wheels, and push handles at the top of the backrest for a carer.
- Belt across the seat adds security.
- Black padded, breathable mesh-style seat and backrest.
- Large spoked rear wheels with hand rims, so the user can propel the chair themselves.
- Swing-away footrests with foot plates and a calf strap for a supported leg position.

ELECTRIC WHEELCHAIRS

Electric Wheelchair

MK-6004

OVERVIEW

The MK-6004 is a foldable electric wheelchair from SEFAKOY for people who need powered mobility, in hospitals, care homes and at home. A joystick controller on the right armrest steers the chair, large rear drive wheels and small front castors carry a blue padded seat and backrest, and swing-away footrests and a flip-up left armrest make getting in and out easier. Push handles let a carer steer it when needed.

SUPPLIED WITH / OPTIONS

- Spare battery, charger, cushions and other accessories available on request.

SPECIFICATIONS

Brand	SEFAKOY	Model	MK-6004
Category	Mobility Aids	Type	Electric (powered) wheelchair with a foldable frame
Drive	Battery-powered, driven by hub motors in the large rear wheels	Control	Joystick controller on the right armrest with a small control panel
Frame	Silver-coloured metal frame, foldable	Seat and backrest	Blue padded, breathable fabric seat and backrest with black side panels
Armrests	Padded armrests; the left armrest flips up and the right carries the joystick	Wheels	Large rear drive wheels with a red hub cap, and small front castor wheels with anti-tip wheels behind
Footrests	Swing-away footrests with foot plates and a blue calf strap	Push handles	Push handles at the top of the backrest for a carer
Motor power	Confirmed in your quotation	Battery type and capacity	Confirmed in your quotation
Range and maximum speed	Confirmed in your quotation	Maximum user weight	Confirmed in your quotation
Seat width and depth	Confirmed in your quotation	Folded and unfolded dimensions	Confirmed in your quotation
Weight with and without battery	Confirmed in your quotation	Charger and voltage	Confirmed in your quotation

KEY FEATURES

- Joystick controller on the right armrest with a small control panel, for one-hand steering.
- Foldable silver-coloured metal frame for storage and transport.
- Flip-up left armrest for easier side transfers.
- Small front castors and anti-tip wheels behind the drive wheels for stability.
- Battery-powered drive through the large rear wheels, so the user does not need to push the wheels by hand.
- Blue padded, breathable seat and backrest with black side panels.
- Swing-away footrests with foot plates and a calf strap.
- Push handles at the top of the backrest for a carer.

To quote this model, tell us: Required quantity and destination · Where it will be used: hospital, care home, home use or outdoors · Seat width and the weight of the users it must support · Mains voltage and plug type for the charger in your country

68 WALKERS Aluminium Walker with Wheels

OVERVIEW

An aluminium walker with wheels from SEFAKOY, for people who need extra support and stability when walking, in hospitals, rehabilitation, care homes and at home. Two light silver aluminium side frames with grey padded grips are joined by a folding front cross-brace, so the walker folds flat for storage and transport. The legs adjust in height, and two front wheels let the user glide it forward with less lifting, while rubber-tipped rear legs give a firm grip.

SUPPLIED WITH / OPTIONS

- Replacement rubber tips, wheels and accessories such as a tray or bag available on request.

SPECIFICATIONS

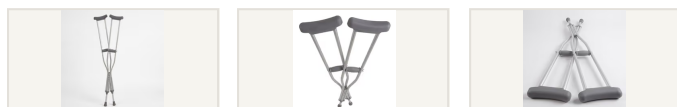

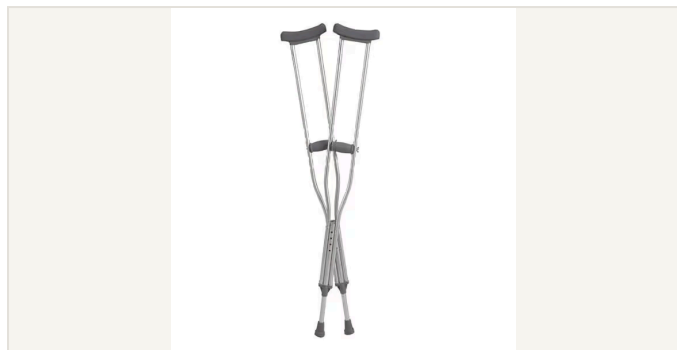

Brand	SEFAKOY	Category	Mobility Aids
Type	Folding walker (walking frame) with front wheels	Frame material	Aluminium tube frame, silver-coloured
Hand grips	Grey padded grips on both top rails	Side frames	Two side frames, each with a lower cross-bar
Front cross-brace	Front cross-brace with two folding hinges, so the walker folds flat	Height adjustment	Adjustable-height legs with a grey collar at each leg joint
Front wheels	Two fixed grey wheels on the front legs	Rear legs	Rubber ferrules (tips) on the rear legs
Finish	Silver aluminium with grey grips and grey wheels	Height range	Confirmed in your quotation
Width between the side frames	Confirmed in your quotation	Maximum user weight	Confirmed in your quotation
Wheel diameter	Confirmed in your quotation	Folded dimensions	Confirmed in your quotation
Weight of the walker	Confirmed in your quotation		

KEY FEATURES

- Light aluminium frame that is easy to lift, carry and wipe clean.
- Front cross-brace with two folding hinges, so the walker folds flat for storage and transport.
- Two front wheels let the user push the walker forward without lifting it each step.
- Lower cross-bar on each side frame for added rigidity.
- Grey padded hand grips on both side frames for a comfortable hold.
- Adjustable-height legs to suit different users.
- Rubber-tipped rear legs for a firm, non-slip grip on the floor.

To quote this model, tell us: Required quantity and destination · Where it will be used: hospital, rehabilitation, care home or home use · User height range and weight you need it to support · Wheel size and whether you need any accessories, such as a tray or a bag

69 CRUTCHES Aluminum Crutch

OVERVIEW

An aluminium underarm crutch from SEFAKOY, supplied as a pair, for people who need support while an injury heals, in hospitals, rehabilitation and at home. A light silver aluminium frame carries grey padded underarm pads and padded hand grips, and the lower leg adjusts in height so the crutch can be set to suit the user. Grey rubber tips give a firm grip on the floor.

SUPPLIED WITH / OPTIONS

- Replacement rubber tips, underarm pads and hand grips available on request.

SPECIFICATIONS

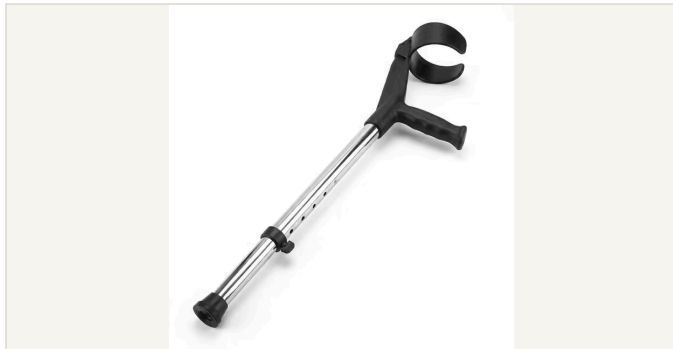

Brand	SEFAKOY	Category	Mobility Aids
Type	Underarm (axillary) crutches, supplied as a pair	Frame material	Aluminium, silver-coloured
Underarm pads	Grey padded, curved top pads	Hand grips	Grey padded hand grips across the middle of the frame
Frame shape	Two uprights that join into a single lower leg	Height adjustment	Adjustable-height lower leg, with a row of holes and a clip for setting the height
Tips	Grey rubber tips at the foot	Finish	Silver aluminium with grey pads, grips and tips
Height range	Confirmed in your quotation	Suitable user height	Confirmed in your quotation
Maximum user weight	Confirmed in your quotation	Sizes available	Confirmed in your quotation
Weight per pair	Confirmed in your quotation		

KEY FEATURES

- Light aluminium frame that is easy to carry and wipe clean.
- Padded hand grips across the middle of the frame, for a secure hold and weight-bearing.
- Height-adjustable lower leg with a row of holes and a clip, so the crutch can be set for the user.
- Supplied as a pair.
- Grey padded, curved underarm pads that sit comfortably under the arm.
- Two uprights that join into a single lower leg for a strong, stable frame.
- Grey rubber tips for a firm, non-slip grip on the floor.

To quote this model, tell us: Required quantity and destination · Where it will be used: hospital, rehabilitation or home use · User height range and weight you need it to support · Sizes you need, for example adult, youth or tall

70 CRUTCHES Elbow Crutch

OVERVIEW

An elbow (forearm) crutch from SEFAKOY, for people who need lasting support while walking, in rehabilitation, long-term use and at home. A black open forearm cuff and an angled, ridged handle are moulded as one piece on top of a polished telescopic metal shaft, so weight is shared between the hand and the forearm. The lower shaft adjusts in height with a row of holes and a locking clip, and a black rubber tip gives a firm grip on the floor.

SUPPLIED WITH / OPTIONS

- Replacement rubber tips and other spare parts available on request.

SPECIFICATIONS

Brand	SEFAKOY	Category	Mobility Aids
Type	Elbow (forearm) crutch	Shaft	Polished metal tube (aluminium-look), telescopic
Forearm cuff	Black, open C-shaped cuff, moulded together with the handle	Handle	Black moulded handle with a ridged grip, set at an angle to the shaft
Height adjustment	Adjustable-height lower shaft, with a row of holes and a locking clip	Tip	Black rubber ferrule at the foot
Finish	Polished metal shaft with black cuff, handle and tip	Height range	Confirmed in your quotation
Cuff and handle adjustment	Confirmed in your quotation	Maximum user weight	Confirmed in your quotation
Sizes available	Confirmed in your quotation	Weight per crutch	Confirmed in your quotation

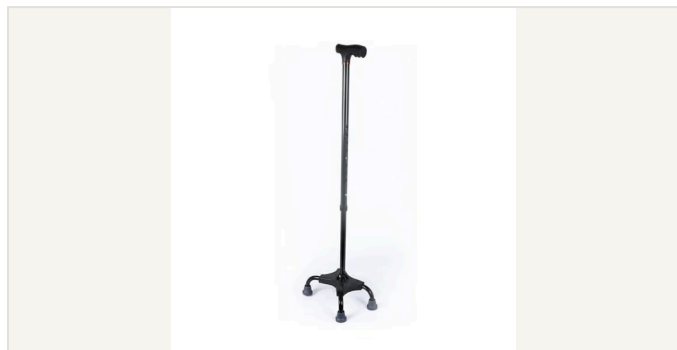

KEY FEATURES

- Forearm cuff shares the load between the hand and the forearm, so less weight goes through the wrist.
- Angled black handle with a ridged surface for a secure grip.
- Height-adjustable lower shaft with a row of holes and a locking clip.
- Slim, tidy shape that is easy to carry and store.
- Open C-shaped cuff, moulded in one piece with the handle.
- Polished telescopic metal shaft that is light and easy to wipe clean.
- Black rubber tip for a firm, non-slip grip on the floor.

To quote this model, tell us: Required quantity and destination · Where it will be used: rehabilitation, long-term use or home use · User height range and weight you need it to support · Whether you need them singly or as a pair, and any size options

71 WALKING STICKS

Walking Stick with Four Legs

OVERVIEW

A walking stick with four legs (a quad cane) from SEFAKOY, for people who need more stability than a single-tip stick gives, in rehabilitation, long-term use and at home. A slim black telescopic shaft carries a moulded T-shaped handle, and the four-legged base spreads the load over four grey rubber feet so the stick can stand upright on its own. The shaft adjusts in height with a row of holes and a push-pin lock.

SUPPLIED WITH / OPTIONS

- Replacement rubber tips and other spare parts available on request.

SPECIFICATIONS

Brand	SEFAKOY	Category	Mobility Aids
Type	Walking stick (quad cane) with four feet	Shaft	Slim black metal shaft, telescopic
Height adjustment	Adjustable-height shaft, with a row of holes and a push-pin lock	Handle	Black moulded T-shaped handle with a red ring at the base
Base	Four-legged base: a flat black plate with four splayed legs	Feet	Four grey rubber tips with a ridged, non-slip underside
Finish	Black shaft, base and handle with grey tips	Height range	Confirmed in your quotation
Base size	Confirmed in your quotation	Maximum user weight	Confirmed in your quotation
Material	Confirmed in your quotation	Handle side (left, right or both)	Confirmed in your quotation
Weight of the stick	Confirmed in your quotation		

KEY FEATURES

- Four-legged base gives a wide, stable footprint, so the stick can stand upright on its own.
- Moulded T-shaped black handle that is comfortable to hold.
- Light black metal frame that is easy to carry and wipe clean.
- Sold singly.
- Four grey rubber tips with a ridged, non-slip underside grip the floor firmly.
- Slim telescopic shaft that adjusts in height with a row of holes and a push-pin lock.
- Slim shaft and compact base that fit easily by a chair or bed.

To quote this model, tell us: Required quantity and destination · Where it will be used: rehabilitation, long-term use or home use · User height range and weight you need it to support · Whether you need a small or large base, and left- or right-handed models

72 INSTRUMENT CABINETS

Medical Instrument Cabinet

OVERVIEW

A single-door glazed medical instrument cabinet from SEFAKOY, for keeping instruments, dressings and supplies in treatment rooms, theatres and sterile stores. A white painted metal body carries a full-height door with a glass panel, so the contents can be seen at a glance, and several glass shelves sit on adjustable supports. A key lock keeps the contents secure, and short legs with adjustable feet raise the cabinet off the floor and let it stand level. The smooth white finish wipes clean.

SUPPLIED WITH / OPTIONS

- Additional glass shelves, a second door, drawers and other accessories available on request.

SPECIFICATIONS

Brand	SEFAKOY	Category	Hospital Furniture and Storage
Type	Single-door glazed medical instrument cabinet, freestanding	Body	White painted metal body
Door	Full-height hinged door with a glass panel in a white frame	Glass	Clear glass, so contents can be seen without opening the door
Shelves	Several glass shelves (five or six visible), set on adjustable supports	Lock	Key lock at the edge of the door
Feet	Four short metal legs with adjustable feet	Finish	Smooth white finish that wipes clean
Overall dimensions	Confirmed in your quotation	Exact number of shelves and their spacing	Confirmed in your quotation
Load capacity per shelf	Confirmed in your quotation	Metal and glass thickness	Confirmed in your quotation
Weight of the cabinet	Confirmed in your quotation		

KEY FEATURES

- Glass door panel lets staff see the contents without opening the cabinet.
- Key lock at the edge of the door keeps instruments and supplies secure.
- Slim, tall shape that fits neatly against a wall in a small room.
- Clear glass shelves let light through, so items on lower shelves stay visible.
- Several glass shelves on adjustable supports, so the space can be set to suit the items stored.
- White painted metal body that is strong and easy to wipe clean.
- Short metal legs with adjustable feet keep the cabinet level on uneven floors.

To quote this model, tell us: Required quantity and destination · Where it will be used: treatment room, theatre, sterile store or ward · Size you need, and how many shelves and what they must carry · Whether you need a single door or a double door, and the lock type

73 BANDAGES PBT Bandage

OVERVIEW

A PBT bandage from SEFAKOY, supplied in wide white rolls for dressing and supporting wounds and limbs in hospitals, clinics, emergency care and home care. The soft, open-weave fabric is wound tightly around a hollow core, and rolls are supplied in matching widths so they can be stocked and used together.

SUPPLIED WITH / OPTIONS

- Bandage clips, tape and other dressing supplies available on request.

SPECIFICATIONS

Brand	SEFAKOY	Category	Wound Care and Dressings
Type	PBT bandage, supplied in rolls	Material	PBT (polybutylene terephthalate) fabric, as named
Colour	White	Fabric	Soft, textured, open-weave fabric surface
Form	Wide, tightly wound roll with a hollow core	Roll shown	Two rolls of equal width, one resting on the other
Width and length of the roll	Confirmed in your quotation	Stretch (elasticity) and how it conforms	Confirmed in your quotation
Sterile or non-sterile	Confirmed in your quotation	Ends fastening (clips, tape or self-adhesive)	Confirmed in your quotation
Pack size and carton quantity	Confirmed in your quotation	Standards and documents	Confirmed in your quotation

KEY FEATURES

- Soft, textured fabric that is gentle to handle and easy to wrap.
- Supplied in wide rolls, wound tightly around a hollow core.
- Plain white colour that shows any soiling clearly.
- Compact rolls that store neatly in a dressing trolley or cupboard.
- Open-weave surface that lets the dressing beneath breathe.
- Rolls of matching width, so stock is easy to organise and use.
- Suitable for wound dressing and limb support in hospitals, clinics and homes.

To quote this model, tell us: Required quantity and destination · Where it will be used: ward, emergency care, clinic or home care · Roll width and length you need · Whether you need sterile or non-sterile bandages, and the pack size

74 BANDAGES Non-Woven Self-Adhesive Bandage

OVERVIEW

A non-woven self-adhesive bandage from SEFAKOY, supplied in wide rolls for wrapping and supporting limbs and holding dressings in place in hospitals, clinics, sports care and home care. The soft, textured fabric is wound on a white cardboard core and comes in a choice of colours, including peach, green, purple, white, pink and a tan skin tone, so it is easy to tell rolls apart or match to a patient.

SUPPLIED WITH / OPTIONS

- Scissors, dressing pads and other supplies available on request.

SPECIFICATIONS

Brand	SEFAKOY	Category	Wound Care and Dressings
Type	Non-woven self-adhesive bandage, supplied in rolls	Material	Non-woven fabric, as named
Adhesion	Self-adhesive, as named; a roll is shown unrolled with its textured face visible	Surface	Soft, crinkled, textured surface
Core	White cardboard core, open in the centre	Roll shape	Wide, cylindrical roll, about as tall as it is across
Colours shown	Six colours: peach, green, purple, white, pink and tan (skin tone)	Width and length of the roll	Confirmed in your quotation
Stretch (elasticity) and how firmly it holds	Confirmed in your quotation	Latex content	Confirmed in your quotation
Sterile or non-sterile	Confirmed in your quotation	Pack size and carton quantity	Confirmed in your quotation
Standards and documents	Confirmed in your quotation		

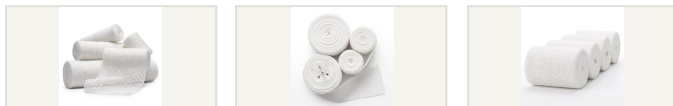

KEY FEATURES

- Self-adhesive, as named, so the bandage holds in place without clips or tape.
- Wide rolls wound on a white cardboard core.
- Tan skin-tone roll for a discreet look where a neutral colour is preferred.
- Suitable for wrapping limbs and holding dressings in hospitals, clinics, sports care and at home.
- Soft, crinkled, textured fabric that is gentle to handle and easy to wrap.
- Six colours shown: peach, green, purple, white, pink and tan, for easy identification of rolls or patients.
- Neat, uniform rolls that stack and store easily on a shelf or in a trolley.

To quote this model, tell us: Required quantity and destination · Where it will be used: ward, clinic, sports care or home care · Roll width and length you need, and the colours · Whether you need latex-free bandages, and the pack size

75 BANDAGES

Conforming Bandage

OVERVIEW

A conforming bandage from SEFAKOY, supplied in white rolls for holding dressings in place and wrapping limbs in hospitals, clinics, emergency care and home care. The light, open-weave fabric has a visible mesh and neat finished edges, and the tightly wound rolls come in more than one width so the right size can be chosen for a finger, hand, arm or leg.

SUPPLIED WITH / OPTIONS

- Bandage clips, tape, dressing pads and other supplies available on request.

SPECIFICATIONS

Brand	SEFAKOY	Category	Wound Care and Dressings
Type	Conforming bandage, supplied in rolls	Colour	White
Fabric	Light, open-weave (gauze-like) fabric with a visible mesh	Edges	Neat, finished woven edges on the unrolled strip
Form	Tightly wound rolls with a small hollow core	Widths shown	More than one roll width, from narrow to wide
Width and length of each roll	Confirmed in your quotation	Stretch (elasticity) and how it conforms	Confirmed in your quotation
Composition of the fabric	Confirmed in your quotation	Sterile or non-sterile	Confirmed in your quotation
Fastening of the end (clips, tape or none)	Confirmed in your quotation	Pack size and carton quantity	Confirmed in your quotation
Standards and documents	Confirmed in your quotation		

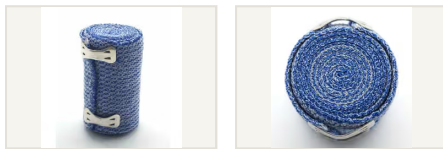

KEY FEATURES

- Light, open-weave fabric with a visible mesh, so the area beneath can breathe.
- Tightly wound rolls with a small hollow core.
- White fabric, so staff can see at a glance when it needs changing.
- Compact rolls that store neatly in a dressing trolley or cupboard.
- Neat, finished woven edges that lie flat when wrapped.
- More than one roll width, so the size can suit a finger, hand, arm or leg.
- Soft and gentle to handle.

To quote this model, tell us: Required quantity and destination · Where it will be used: ward, emergency care, clinic or home care · Roll widths and lengths you need · Whether you need sterile or non-sterile bandages, and the pack size

76 BANDAGES

Ice Bandage

OVERVIEW

An ice bandage from SEFAKOY, supplied as a rolled knitted bandage for wrapping and supporting limbs in hospitals, clinics, sports care and home care. A blue-and-white patterned knitted fabric is wound into a firm roll, and two metal clips at the ends hold the wrap in place.

SUPPLIED WITH / OPTIONS

- Replacement clips, cold packs and other supplies available on request.

SPECIFICATIONS

Brand	SEFAKOY	Category	Wound Care and Dressings
Type	Rolled knitted bandage with clips, as named "ice bandage"	Fabric	Blue-and-white patterned knitted fabric
Form	Firm cylindrical roll	Fastening	Two metal clips with pointed teeth, one at each end of the wrap
Width and length of the roll	Confirmed in your quotation	Stretch (elasticity)	Confirmed in your quotation
Cooling properties and how they work	Confirmed in your quotation	Fabric composition	Confirmed in your quotation
Latex content	Confirmed in your quotation	Pack size and carton quantity	Confirmed in your quotation
Standards and documents	Confirmed in your quotation		

KEY FEATURES

- Blue-and-white patterned knitted fabric that is easy to recognise.
- Two metal clips at the ends hold the wrap securely in place.
- Compact roll that stores neatly in a first aid kit or dressing trolley.
- Textured knit that is comfortable to handle.
- Firm, neat roll that is easy to wrap around a limb.
- Suitable for wrapping and supporting limbs in hospitals, clinics, sports care and at home.
- Clips supplied with the roll, so no extra tape is needed.

GAUZE

Jumbo Gauze Roll

OVERVIEW

A jumbo gauze roll from SEFAKOY, a large white roll of soft gauze-type fabric for dressing wounds and padding in hospitals, clinics, emergency care and home care. The fabric is wound on a small hollow core and can be unwound and cut to the length needed.

SUPPLIED WITH / OPTIONS

- Scissors, tape, dressing pads and other supplies available on request.

SPECIFICATIONS

Brand	SEFAKOY	Category	Wound Care and Dressings
Type	Jumbo (large) gauze roll	Colour	White
Fabric	Soft, light gauze-type fabric in fine layers	Form	Large cylindrical roll with a small hollow core
Use	Unwound and cut to length as needed	Width and length of the roll	Confirmed in your quotation
Thread count and ply	Confirmed in your quotation	Fabric composition	Confirmed in your quotation
Sterile or non-sterile	Confirmed in your quotation	Pack size and carton quantity	Confirmed in your quotation
Standards and documents	Confirmed in your quotation		

KEY FEATURES

- Large roll gives plenty of material, so one roll goes a long way.
- Soft, light fabric that is gentle to handle.
- Unwind and cut to the length needed for each dressing.
- Clean white finish that makes any marks easy to spot.
- Fine layers that can be folded into pads.
- Neatly wound roll that stores easily on a shelf or in a trolley.
- Suitable for dressing wounds and padding in hospitals, clinics and homes.

To quote this model, tell us: Required quantity and destination · Where it will be used: ward, theatre, clinic or home care · Roll width and length you need · Sterile or non-sterile, and the pack size

78 EMERGENCY BANDAGES

Type H Hemostatic Bandage

OVERVIEW

A Type H hemostatic bandage from SEFAKOY, supplied folded flat in a clear sealed pack for emergency and first aid use. Two firm cream-coloured pads sit on a woven strap with a red-and-cream zig-zag pattern, so the bandage can be wrapped and pressed against a wound. The clear pack keeps it clean and lets the contents be seen. Use it only as trained, following the instructions supplied with it.

SUPPLIED WITH / OPTIONS

- Kit bags, gloves, scissors and other emergency supplies available on request.

SPECIFICATIONS

Brand	SEFAKOY	Category	Wound Care and Dressings
Type	Type H hemostatic (emergency) bandage, as named	Pads	Two firm cream-coloured pads, one near each end of the strap
Strap	Woven strap with a red-and-cream zig-zag pattern	Packaging	Sealed clear plastic pouch, folded flat
Form	Compact, flat pack that fits in a first aid kit	Hemostatic agent or mechanism	Confirmed in your quotation
Materials of the pads and strap	Confirmed in your quotation	Sterile or non-sterile	Confirmed in your quotation
Bandage width and length	Confirmed in your quotation	Pack size and shelf life	Confirmed in your quotation
Standards and documents	Confirmed in your quotation		

KEY FEATURES

- Two firm pads on a woven strap, designed to be wrapped and pressed in place.
- Sealed clear pouch keeps the bandage clean and lets the contents be seen at a glance.
- Light and quick to reach for in an emergency.
- Individually packed for easy storage and distribution.
- Red-and-cream zig-zag strap that is easy to recognise.
- Flat, compact pack that fits easily in a first aid kit, vehicle or trauma bag.
- Suited to emergency and first aid use.

To quote this model, tell us: Required quantity and destination · Who will use it: ambulance, first aid team, military or industrial site · Whether you need sterile packs, and the shelf life you require · Training and instructions you need supplied

79 MEDICAL TAPES

Cotton Rigid Sports Medical Tape (Zinc Oxide)

OVERVIEW

A cotton rigid sports medical tape from SEFAKOY, with a zinc oxide adhesive, supplied in rolls for strapping and supporting joints in sports care, clinics and physiotherapy. The photo shows three rolls in white, black and tan (skin tone), with a length of white tape pulled out flat.

SUPPLIED WITH / OPTIONS

- Pre-wrap, scissors and other strapping supplies available on request.

SPECIFICATIONS

Brand	SEFAKOY	Category	Wound Care and Dressings
Type	Rigid (non-stretch) cotton sports tape with zinc oxide adhesive, as named	Form	Rolls on a card core
Colours shown	White, black and tan (skin tone)	Edge	Straight, cut edges; tape shown pulled out flat
Width and length of each roll	Confirmed in your quotation	Adhesive strength and skin tolerance	Confirmed in your quotation
Hand-tearable or needs scissors	Confirmed in your quotation	Latex content	Confirmed in your quotation
Pack size and carton quantity	Confirmed in your quotation	Standards, certificates and documents	Confirmed in your quotation

KEY FEATURES

- Rigid cotton tape for firm strapping and joint support.
- Three colours shown, so tape can match skin tone or team colours.
- Suitable for sports care, clinics and physiotherapy.
- Plain, woven cotton surface.
- Zinc oxide adhesive, as named, for a firm hold on the skin.
- Supplied in neat rolls that store easily in a kit.
- Tan roll gives a discreet look under clothing.

To quote this model, tell us: Required quantity and destination · Roll width and length you need, and the colours · Where it will be used: sports team, clinic or physiotherapy · Whether you need latex-free tape

80

WOUND DRESSINGS

Non-Woven Wound Dressing

OVERVIEW

A non-woven wound dressing from SEFAKOY, an adhesive dressing that holds a soft absorbent pad over a wound. A white non-woven border with a dotted pattern surrounds a central pad and sticks to the skin, as shown on a hand. The dressing is rectangular with rounded corners and is designed to be applied and removed gently.

SUPPLIED WITH / OPTIONS

- Other sizes, tapes, bandages and dressing supplies available on request.

SPECIFICATIONS

Brand	SEFAKOY	Category	Wound Care and Dressings
Type	Adhesive non-woven wound dressing with a central pad	Border	White non-woven border with a dotted pattern
Pad	Soft central pad, shown as a light green-white panel	Shape	Rectangle with rounded corners
Application	Sticks to the skin, shown on the back of a hand	Sizes available	Confirmed in your quotation
Pad absorbency and material	Confirmed in your quotation	Adhesive type and skin tolerance	Confirmed in your quotation
Waterproof or breathable	Confirmed in your quotation	Sterile or non-sterile	Confirmed in your quotation
Pack size and carton quantity	Confirmed in your quotation		

KEY FEATURES

- Soft non-woven border that is gentle on the skin.
- Dotted pattern adds a neat finish and helps the dressing lie flat.
- Adhesive border holds the dressing in place without extra tape.
- Suitable for wards, clinics and home care.
- Central pad sits over the wound without sticking to it.
- Rounded corners lift less at the edges.
- Lightweight and comfortable to wear.

81 NECK BRACES

Adjustable Neck Brace

OVERVIEW

An adjustable neck brace from SEFAKOY, for supporting the neck in first aid, emergency care and transport. A rigid blue plastic shell with a yellow chin piece is lined with soft white foam, and a white hook-and-loop strap closes it around the neck. Screw-type adjustment points let the brace be set to the wearer. It should only be fitted by trained staff.

SUPPLIED WITH / OPTIONS

- Spare straps, foam liners and other accessories available on request.

SPECIFICATIONS

Brand	SEFAKOY	Category	First Aid and Emergency Care
Type	Adjustable neck brace (collar)	Shell	Rigid blue plastic shell
Chin support	Yellow moulded chin piece	Padding	Soft white foam lining that rests against the neck
Fastening	White hook-and-loop strap, with a buckle on some views	Adjustment	Screw-type adjustment points on each side of the shell
Front opening	Open front (throat) area in the shell	Sizes and adjustment range	Confirmed in your quotation
Material of the shell and foam	Confirmed in your quotation	Intended use and instructions	Confirmed in your quotation
Standards and documents	Confirmed in your quotation	Pack size	Confirmed in your quotation
Weight	Confirmed in your quotation		

KEY FEATURES

- Rigid blue shell with a yellow chin piece for a firm, recognisable shape.
- Hook-and-loop strap closes the brace quickly and securely.
- Open front area in the shell.
- Smooth surfaces that wipe clean between uses.
- Soft white foam lining that rests comfortably against the neck.
- Screw-type adjustment points let the brace be set to suit the wearer.
- Light plastic construction that is easy to carry in an emergency bag.

FIRST AID KITS

First Aid Kit

HD815

OVERVIEW

The HD815 is a first aid kit bag from SEFAKOY, for ambulances, emergency response teams, workplaces and vehicles. A red fabric bag with black handles and a shoulder strap has two large front pockets with reflective silver strips, a top compartment and side pockets, and it can be worn as a backpack. A firm black base with raised feet keeps it clean and steady on the ground.

SUPPLIED WITH / OPTIONS

- Additional dressings, splints, gloves and other refills available on request.

SPECIFICATIONS

Brand	SEFAKOY	Model	HD815
Category	First Aid and Emergency Care	Type	First aid / trauma kit bag
Body	Red fabric bag	Handles and straps	Black carry handles, a shoulder strap and backpack straps
Front	Two large zipped front pockets with reflective silver strips	Top	Top compartment with a carry handle
Sides	Zipped side pockets	Base	Firm black base with raised rubber-style feet
Carrying options	Hand, shoulder or backpack	Contents included	Confirmed in your quotation
Dimensions and capacity	Confirmed in your quotation	Fabric material and waterproofing	Confirmed in your quotation
Weight	Confirmed in your quotation		

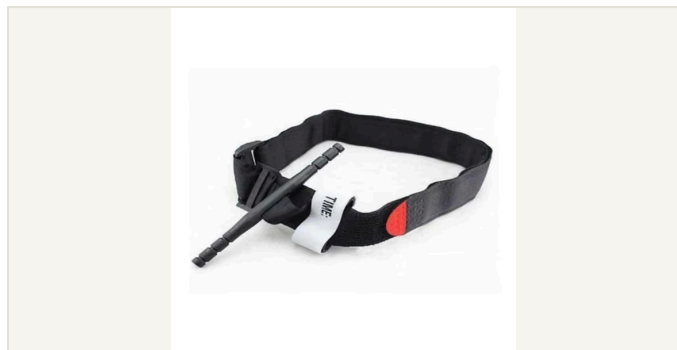

KEY FEATURES

- Bright red bag with reflective silver strips, easy to spot and to see in low light.
- Top compartment and side pockets for extra items.
- Firm black base with raised feet keeps the bag clean and steady on the ground.
- Wipe-clean fabric surface.
- Two large front pockets for supplies you need to reach quickly.
- Carry by hand, over the shoulder or on the back as a backpack.
- Reinforced black handles at the top for a secure grip.

83 **TOURNIQUETS**

Disposable Medical Tourniquet

OVERVIEW

A disposable medical tourniquet from SEFAKOY, for controlling blood flow in emergency and first aid use. A black strap with a hook-and-loop closure wraps around the limb and is tightened by turning a black rod (windlass), and a white time tab lets the person applying it write the time. It is designed to be used once. Only people trained in tourniquet use should apply it.

SUPPLIED WITH / OPTIONS

- First aid kits, dressings and other emergency supplies available on request.

SPECIFICATIONS

Brand	SEFAKOY	Category	First Aid and Emergency Care
Type	Windlass-type tourniquet, disposable	Strap	Black strap with hook-and-loop closure
Tightening	Black rod (windlass) that is turned to tighten the strap	Time tab	White tab marked "TIME" for writing the time of application
Locking	Red pull tab and clip that hold the rod in place	Strap width and length	Confirmed in your quotation
Maximum tightening force and tested range	Confirmed in your quotation	Materials	Confirmed in your quotation
Standards and documents	Confirmed in your quotation	Pack size and carton quantity	Confirmed in your quotation
Sterile or non-sterile	Confirmed in your quotation		

KEY FEATURES

- Windlass rod lets the strap be tightened firmly and held in place.
- White time tab for recording when it was applied.
- Compact and light for carrying in a kit or pocket.
- Black strap that does not show soiling.
- Hook-and-loop strap wraps quickly around a limb.
- Red pull tab is easy to find and use.
- Disposable, so a fresh one is used each time.

To quote this model, tell us: Required quantity and destination · Who will use it: ambulance, military, first aid team or industrial site · Training and instructions you need supplied · Whether you want it in kits or as individual packs

Orthopaedic and Casting Supplies

Splints, cast covers and cast padding for orthopaedic clinics, emergency departments and wards.

3 models

MODEL	PRODUCT	SIZE
—	Arm Cast Cover	—
—	High Polymer Splint	—
—	Orthopedics Cast Padding Medical Bandage	—

87 CAST COVERS

Arm Cast Cover

OVERVIEW

An arm cast cover from SEFAKOY, a clear plastic sleeve that slips over an arm cast to keep it protected from water and dirt, for patients at home and on the ward. A turquoise sealing band at the top fits around the upper arm to close the cover, and the transparent body lets the cast stay visible.

SUPPLIED WITH / OPTIONS

- Leg cast covers and other sizes available on request.

SPECIFICATIONS

Brand	SEFAKOY	Category	Orthopaedic and Casting Supplies
Type	Cover for an arm cast, full arm length	Body	Clear, transparent plastic sleeve
Closure	Turquoise sealing band around the upper arm	Shape	Shaped to the arm, with a closed hand end
Visibility	The cast can be seen through the cover	Sizes (adult, child) and lengths	Confirmed in your quotation
Material and thickness	Confirmed in your quotation	Water resistance and how it should be used	Confirmed in your quotation
Reusable or single-use	Confirmed in your quotation	Pack size and carton quantity	Confirmed in your quotation
Standards, certificates and documents	Confirmed in your quotation		

KEY FEATURES

- Clear sleeve that keeps the cast visible while covered.
- Shaped to fit the arm and hand.
- Helps protect the cast from dirt and splashes.
- Folds small for storage and carrying.
- Turquoise sealing band closes the cover around the upper arm.
- Light and easy to slip on and off.
- Wipes clean after use.

To quote this model, tell us: Required quantity and destination · Adult, child or both sizes, and arm or leg covers · Where it will be used: ward, clinic or home use · Whether you need it reusable or single-use

88 SPLINTS

High Polymer Splint

OVERVIEW

A high polymer splint from SEFAKOY, for supporting and immobilising a limb in orthopaedic care and first aid. A cream-coloured perforated mesh splint is shaped to follow the contour of the foot and ankle, and the open holes let air reach the skin. It is light and can be shaped to fit.

SUPPLIED WITH / OPTIONS

- Padding, cast bandages and other orthopaedic supplies available on request.

SPECIFICATIONS

Brand	SEFAKOY	Category	Orthopaedic and Casting Supplies
Type	Polymer splint for a limb, shown on a foot and ankle	Colour	Cream
Structure	Perforated mesh with open holes	Fit	Shaped to follow the contour of the foot and ankle
Weight feel	Light	Sizes and lengths available	Confirmed in your quotation
Exact polymer material	Confirmed in your quotation	How it is moulded (heat, water or dry)	Confirmed in your quotation
Strength and set time	Confirmed in your quotation	Pack size and carton quantity	Confirmed in your quotation
Standards, certificates and documents	Confirmed in your quotation		

KEY FEATURES

- Perforated mesh lets air reach the skin.
- Can be shaped to follow the contour of the limb.
- Supports the foot and ankle in a fixed position.
- Suitable for orthopaedic care and first aid.
- Light, so it is comfortable to wear.
- Cream colour looks neat and discreet.
- Easy to carry and store flat.

To quote this model, tell us: Required quantity and destination · Which limb and sizes you need · Where it will be used: emergency, orthopaedic clinic or ward · Whether you need padding or bandages supplied with it

89

CAST PADDING

Orthopedics Cast Padding Medical Bandage

OVERVIEW

An orthopaedic cast padding bandage from SEFAKOY, a soft padding roll used under plaster or synthetic casts to protect the skin. The photo shows three white rolls with a hollow core, stacked with a printed pack wrapper on top.

SUPPLIED WITH / OPTIONS

- Casting tape, stockinette and other orthopaedic supplies available on request.

SPECIFICATIONS

Brand	SEFAKOY	Category	Orthopaedic and Casting Supplies
Type	Cast padding bandage rolls	Colour	White
Form	Soft rolls with a hollow core	Pack	Printed pack wrapper shown on top of the rolls
Use	Padding layer under a plaster or synthetic cast	Roll width and length	Confirmed in your quotation
Material (cotton, synthetic or blend)	Confirmed in your quotation	Stretch and tear behaviour	Confirmed in your quotation
Latex content	Confirmed in your quotation	Pack size and carton quantity	Confirmed in your quotation
Standards, certificates and documents	Confirmed in your quotation		

KEY FEATURES

- Soft padding that protects the skin under a cast.
- White colour shows any soiling clearly.
- Compact rolls that stack and store neatly.
- Suitable for plaster and synthetic casting.
- Supplied in neat rolls that unwind easily.
- Several rolls per pack for busy orthopaedic clinics.
- Can be layered to the thickness needed.

To quote this model, tell us: Required quantity and destination · Roll widths and lengths you need · Where it will be used: orthopaedic clinic, emergency or ward · Whether you also need casting tape supplied

90 PROTECTIVE GOWNS Disposable Isolation Gown

OVERVIEW

A disposable isolation gown from SEFAKOY, for staff and visitors who need a barrier layer over their clothing in wards, clinics and laboratories. A light blue non-woven-looking gown has long sleeves with elastic cuffs and ties at the neck and waist, and it falls to about knee length. It is designed to be used once and discarded.

SUPPLIED WITH / OPTIONS

- Gloves, masks, caps and other protective supplies available on request.

SPECIFICATIONS

Brand	SEFAKOY	Category	Protective Equipment and Infection Control
Type	Disposable isolation gown	Colour	Light blue
Fabric	Light non-woven-type fabric	Sleeves	Long sleeves with elastic cuffs
Fastening	Ties at the neck and waist	Length	About knee length
Sizes	Confirmed in your quotation	Fabric weight and material	Confirmed in your quotation
Protection level (for example AAMI level) and standards	Confirmed in your quotation	Fluid resistance	Confirmed in your quotation
Pack size and carton quantity	Confirmed in your quotation	Sterile or non-sterile	Confirmed in your quotation

KEY FEATURES

- Light, breathable-looking fabric that is comfortable to wear.
- Neck and waist ties close the gown quickly.
- Designed for single use, so no laundering.
- Folds flat for compact storage.
- Elastic cuffs keep the sleeves in place.
- Covers the body down to about knee level.
- Light blue colour is easy to recognise.

HAND HYGIENE

Hand Sanitizers

OVERVIEW

Hand sanitizers from SEFAKOY, supplied in clear pump bottles with a white pump top, for hand hygiene in wards, clinics, offices and public areas. The bottles are shown filled with clear gel and carry no label in the photo.

SUPPLIED WITH / OPTIONS

- Refill bottles, wall dispensers and other hygiene supplies available on request.

SPECIFICATIONS

Brand	SEFAKOY	Category	Protective Equipment and Infection Control
Type	Hand sanitizer gel in a pump bottle	Bottle	Clear plastic bottle
Dispenser	White pump top	Product	Clear gel
Label	None shown on the bottles in the photo	Bottle volume	Confirmed in your quotation
Alcohol type and percentage	Confirmed in your quotation	Other ingredients and fragrance	Confirmed in your quotation
Registration, certificates and documents	Confirmed in your quotation	Pack size and carton quantity	Confirmed in your quotation
Shelf life	Confirmed in your quotation		

KEY FEATURES

- Clear pump bottle that shows how much gel is left.
- Clear gel that spreads easily over the hands.
- Plain bottles, so your own label can be added.
- Compact size for desks and bedside tables.
- Pump top dispenses a measured amount with one press.
- Suitable for wards, clinics, offices and public areas.
- Stands steadily on a table or counter.

To quote this model, tell us: Required quantity and destination · Bottle sizes you need, and pump or refill packs · Alcohol content or standard you require · Whether you need your own label or branding

92

RESPIRATOR MASKS

KN95 Face Mask

OVERVIEW

A KN95 face mask from SEFAKOY, a white fold-flat mask marked "KN95" for use where a higher level of face protection is wanted, in clinics, workplaces and public areas. It has a stitched edge, a formed shape that covers the nose and mouth, and two thin ear loops.

SUPPLIED WITH / OPTIONS

- Other masks, gloves and protective supplies available on request.

SPECIFICATIONS

Brand	SEFAKOY	Category	Protective Equipment and Infection Control
Type	Fold-flat face mask, marked "KN95"	Colour	White
Shape	Formed to cover the nose and mouth, with a centre seam	Edge	Stitched or welded edge around the mask
Straps	Two thin ear loops	Filtration efficiency and test standard (KN95 / GB2626 or other)	Confirmed in your quotation
Certificates (for example CE or NIOSH equivalents)	Confirmed in your quotation	Number of layers and materials	Confirmed in your quotation
Nose clip and valve	Confirmed in your quotation	Pack size (per box and per carton)	Confirmed in your quotation
Shelf life	Confirmed in your quotation		

KEY FEATURES

- White fold-flat design that stores compactly.
- Thin ear loops that stay comfortable over long wear.
- Neat stitched edge.
- Suitable for clinics, workplaces and public areas.
- Formed shape that covers the nose and mouth.
- Marked "KN95" on the mask.
- Light and easy to carry in a pocket or bag.

Compatible ventilators and humidifiers	Confirmed in your quotation	Sterile or non-sterile	Confirmed in your quotation
Standards, certificates and documents	Confirmed in your quotation		

KEY FEATURES

- Two flexible corrugated tubes that bend without kinking.
- Connectors at both ends for attaching to the machine and the patient.
- Disposable, so a fresh circuit is used for each patient.
- Supplied as a ready-to-connect set.
- Blue and white colouring helps identify the inspiratory and expiratory limbs.
- Small port and adapter for monitoring or humidification.
- Light and easy to set up.

HOW TO ORDER

Send your requirements. We do the rest.

01 Tell us what you need

Model code, quantity and where it is going. If you are not sure which model suits you, describe the ward or theatre and we will help you choose.

02 Receive a written quotation

Specification, price, documents, delivery and installation are confirmed in your final quotation.

03 Delivery and support

We agree delivery timing with you up front and stay in touch after the equipment arrives.

Installation and setup

If installation is part of your quotation, we can set the equipment up at your facility: positioning it, connecting power and checking that everything is ready for use.

Technical support

Medical equipment can take time to get to know. Call or message us and we will help your team work through a problem or get the most from a feature.

Maintenance and repairs

Regular servicing keeps equipment dependable. Tell us which models you have or plan to buy and we will talk through maintenance and repair options with you.
